Bibble 4.6 (Intel)

trial

Bibble Labs, bibble@bibblelabs.com, <http://www.bibblelabs.com>

Requirements: Mac OS 10.3.9 or later

Bibble 4.6 (PowerPC)

Requirements: Mac OS 10.3.9 or later

Bibble is RAW conversion software that yields accurate color through custom profiles and delivers blazing speed through platform-specific optimizations.

BPTLens Distortion Plug-in 4.5d

trial

Bibble Labs, bibble@bibblelabs.com, <http://www.bibblelabs.com>

Requirements: Mac OS 10.3.9 or later, Bibble 4.6

The BPTLens plug-in is based on the work of Thomas Niemann and utilizes his extensive PTLens database to provide correction coefficients.

ComicBookLover 1.0

demo

Bitcartel, <http://www.bitcartel.com>

Requirements: Mac OS 10.4 or later

This app makes it easy to view and collect digital comics. Read comics in single-page mode or Western and Manga double-page mode; auto-sense oversized pages and auto-resize facing pages; and view comics in full-screen mode.

DropWaterMark 3.5

trial

LAJ Design, web@lajdesignsw.com, <http://www.lajdesignsw.com>

Requirements: Mac OS 10.1 or later

DropWaterMark lets you protect your digital work (photographs, art, and so on) by applying a watermark to an image. This way, your customers can view your work, but can not steal your work.

ImageBuddy 3.3.0

trial

Kepmad Systems, imagebuddy@kepmad.com, <http://www.kepmad.com>

Requirements: Mac OS 10.2 or later

This is a digital-image-layout app designed especially to be quick and easy to use. ImageBuddy supports quick page layout, contact sheet/thumbnaill printing, slide shows, full-screen viewing, and more.

ImageWell 2.1.1

freeware

XtraLean Software, ginny@xtralean.com, <http://xtralean.com>

Requirements: Mac OS 10.3.9 or later

ImageWell is the popular image-editing software for quick manipulation and upload to an iDisk (.Mac account), FTP server, or other Web server. Whether you're adding images to your documents, editing offline images, or posting photos to the Web for others to see, ImageWell will do the work for you.

Kinemac 1.1.0

demo

Kinemac, <http://www.kinemac.com>

Requirements: Mac OS 10.3 or later

Kinemac is a 3D real-time animation and presentation app for Mac OS X. It plays animations in real time at full screen and exports them to QuickTime movie files or to a series of single still images.

MediaCentral 1.2.1

freeware

equinux, www.equinux.com

Requirements: Mac OS 10.4 or later

MediaCentral turns your Mac into a home theater system. With support for numerous audio, video, and multimedia formats, MediaCentral brings it all together at the push of a button.

Noise Buster 1.1

trial

Akvis, info@akvis.com, <http://akvis.com>

Requirements: Mac OS 10.4 or later

AKVIS Noise Buster reduces both luminance and color noise on digital images without spoiling other aspects of the photo.
