Let's Go Exploring!

What's On This Disc...

Hello, and welcome to the Clipart Gallery Volume 1 CD-ROM, created by The JLR Group, Inc.! This disc contains hundreds of high-quality color images, in a wide variety of categories. It also has a Browser, which you are now using.

Please take a few minutes to read the brief information below. The following quick overview will help you to find your way around this large library of pictures!

Search...

The Search feature is very powerful. It is available at nearly all times. All you have to do is type the "S" key (upper or lower case).

You can use the asterisk * (shift 8) as a "wildcard" to fill in for one or more missing letters. For example, simply type in any word or phrase you want to look up, like toy*, art*, food*, etc. You'll get a list of all the pictures that have what you're looking for. Select any name on the list, click the Go To button, and you'll automatically zoom to that picture.

> NOTE: There are many items that search will not find, since these items are in the file name. If you don't find what you're looking for with Search, try using the Index!

Search has many sophisticated features, and has additional Help Information built right into it.

You can combine search words any way you want. For example, you can type "son* OR daught* OR child*" and you'll immediately find the three specific pictures in these categories.

Other Search features include AND, NOT, and many others. In general, however, you will probably find the Index more helpful.

Index...

The Index is available at nearly all times. All you have to do is type the "I" key (upper or lower case). The Master Index has well over 1000 entries. Using the Master Index is an easy, quick way to look up the details on a specific topic that you're interested in.

NOTE: If you don't find what you're looking for with Index, try using Search, especially with the Wildcard feature described above!

Credits and Acknowledgments...

The Creation of Clipart Gallery Volume 1

The Clipart Gallery Volume 1 CD-ROM was created over a long period of time by a core team of employees of The JLR Group, Inc. In addition, hundreds of people worked to create many of the materials used for the graphics that are included in this product. It's impossible to list all of the individuals, corporations, government agencies, schools and universities, and other people who were involved. We would like to thank certain people and groups by name for their contributions to this effort. We hope you enjoy Clipart Gallery Volume 1, and we hope you take a few moments to read through the Credits and Acknowledgments.

Clipart Gallery Volume 1

James J. Romeo, Ph.D., Senior Editor
Laura E. Romeo, V.P. of Production
Peter Vantine, Director of Special Projects
