<u>Two new modules for Screen Peace</u>

Enclosed in this zip file are two new screen saver modules for Anthony Andersen's Screen Peace screen saver for Windows 3.0. To install these new modules, simply copy the SOLIDS.SPX and DRAGON.SPX files into your SPX directory (where 'Saver Path' is set to in your WIN.INI under the '[Screen Peace]' header.) Screen Peace must be closed and re-run for the changes to take effect.

If you have any problems, questions, bugs or comments the authors, Jeff Gosztyla and George Browning, may be contacted on CIS account [76346,3017] or on the unix internet at george@shumv1.ncsu.edu

- Enjoy!
