**DESUTL** - Collection of Windows utilities.  
Current Version: 1.05

This library contains the following utilities for Windows 3.0:

**RUN** - allows the Windows user to execute several applications at the same time while giving each app it's own command line. Especially useful for starting several applications when starting Windows.

**CLEAN** - clears the Windows clipboard and squeezes as much memory from Windows as it can so that you can run those memory hungry applications.

**CLOSER** - allows you to close down Windows applications that the Task Manager can't, such as Windows TSR programs.

**EXITW** - allows you to exit to DOS from Windows without the Program Manager or File Manager arguing about it.

**DESFUN** - Collection of TSR's and teasers for Windows 3.0. All of these programs exit when they are finished.  
Current Version: 1.03

This library contains the following programs for Windows 3.0:

**FACE** - draws 100 faces at random intervals on the screen.

**BURST** - draws small cracked areas on the screen at random intervals.

**BURST2** - waits a random amount of time (no less than 1 minute) and then draws a very large cracked area in the center of the screen and exits.

**WIZ** - is similar to **FACE** except that this face is of the robot from the movie Wizards.

**EYES** - draws a pair of eyes on the screen that follow the mouse cursor. The eyes will randomly move around the screen.

**BUGS** - draws four types of bugs on the screen for a random amount of time and then exits

**FRIED** - is a program for any Friday the 13th. On that day it will put up a message that says "\*\* Help me I'm a bug!!! \*\*" and then it will spawn **BUGS** and exit.
