

## Workplace Possibilities

Posted on March 1, 2011 by Mary

Standard Insurance Company, based in Portland Oregon, has been a trusted provider of life, disability, dental, retirement and other coverages for over 100 years.

They now offer “[Workplace Possibilities](#)“, a blog to help Human Resource professionals re-imagine how they manage disability.

There is much more here than just information and strategies for HR staff. Great information can be found for employers and employees on how to prevent disabilities in the first place and to help manage, accomodate and treat them if they do occur.
