

Micah Math Version 1.0

Welcome to Micah Math Verion 1.0. We hope that you and your child enjoy and benifit from Micah Math Ver 1.0. Micah Math Ver 1.0 was written to help my son with his addition and subtraction problems. He is in first grade and he just loves playing with the computer. It was a natural combonation!

Math flash cards are nothing new to computers. We are hoping that the ability for Micah Math Ver 1.0 to speak will help keep your childs interest long after the new wears off.

System Requirements:

MS DOS 5.0
MS Windows 3.1
1 megabyte of free hard drive disk space.
386SX 16mhz or better.

System Recommendations:

386DX 33mhz or better.
Sound Card with external speakers.
Windows compatible mouse.

Micah Math Version 1.0 doesn't have to have a sound card installed to work, but without a sound card you will be unable to hear the 900,000+ bytes of speech that makes what we think it the most interesting thing about Micah Math Version 1.0.

Program Operation:

Operation is very simple. Once you have installed Micah Math Version 1.0 to your system just double click on the Micah Math icon. Once program execution has begun you will be prompted for all other information. Some of the features of Micah Math Version 1.0 include...

- o **Selectable voices (Male, Female, and Kid)**
- o **Selectable mathematical operations (Addition and Subtraction)**
- o **Selectable number ranges (0 - 10, 0 - 20, and 0 - 100)**
- o **You have the ability to exclude zero's and one's in the problems.**
- o **Automatically remembers your session from last time played.**
- o **A tell me button gives you that answer you just can't get.**

Program Installation:

Place your Micah Math Version 1.0 floppy into a drive. In Windows from the program manager select FILE RUN and enter A:\SETUP.EXE or B:\SETUP.EXE depending on the drive you are using.
