Acknowledgements

The TekColor Human Interface is result of pioneering work done within Tektronix Laboratories by Jerry Murch, Joann Taylor and others. This lead to the design and implementation of the TekColor Editor by Bob Toole with the assistance of Paul Shearer, and Mark Stempski. Our thanks go out to all those who provided us with a base from which to develop this version of the TekColor Editor. Bob Toole is especially deserving of recognition for his long standing efforts to promote device independent color and the TekColor Editor. Finally we must thank our management who gave us the freedom to pursue this adventure and allowed us to release this work to the world.
