

DEFINITION OF SHAREWARE

Shareware distribution gives users a chance to try software before buying it. If you try a Shareware program and continue using it, you are expected to register. Individual programs differ on details -- some request registration while others require it, some specify a maximum trial period. With registration, you get anything from the simple right to continue using the software to an updated program with printed manual.

Copyright laws apply to both Shareware and commercial software, and the copyright holder retains all rights, with a few specific exceptions as stated below. Shareware authors are accomplished programmers, just like commercial authors, and the programs are of comparable quality. (In both cases, there are good programs and bad ones!) The main difference is in the method of distribution. The author specifically grants the right to copy and distribute the shareware version, either to all and sundry or to a specific group. For example, some authors require written permission before a commercial disk vendor may copy their Shareware.

Shareware is a distribution method, not a type of software. You should find software that suits your needs and pocketbook, whether it's commercial or Shareware. The Shareware system makes fitting your needs easier, because you can try before you buy. And because the overhead is low, prices are low also. Shareware has the ultimate money-back guarantee -- if you don't use the product, you don't pay for it.

DISCLAIMER - AGREEMENT

Users of "Beat the Bomb" must accept this disclaimer of warranty: "'Beat the Bomb' is supplied as is. The author disclaims all warranties, expressed or implied, including, without limitation, the warranties of merchantability and of fitness for any purpose. The author assumes no liability for damages, direct or consequential, which may result from the use of 'Beat the Bomb'."

"Beat the Bomb" is a "shareware program" and is provided at no charge to the user for evaluation. Feel free to share it with your friends, but please do not give it away altered or as part of another system. The essence of "user-supported" software is to provide personal computer users with quality software without high prices, and yet to provide incentive for programmers to continue to develop new products. The freeware version of "Beat the Bomb" is FREE, however it is NOT "public domain" software. All files must be kept intact and unmodified. Not all shareware programs are free.

If you find this program useful you may want to order the enhanced version. See the file ORDER.FRM for information. The purchase price will license one copy for use on any one computer at any one time. You must treat this software just like a book.

An example is that this software may be used by any number of people and may be freely moved from one computer location to another, so long as there is no possibility of it being used at one location while it's being used at another. Just as a book cannot be read by two different persons at the same time.

Anyone distributing the shareware (freeware) "Beat the Bomb" for any kind of remuneration must read the file VENDOR.DOC and abide by the instructions therein. Only First Magnitude may distribute the Enhanced version of "Beat the Bomb".

The Enhanced version of "Beat the Bomb" may not be copied except as stated above. However, you are encouraged to pass a copy of the shareware version of "Beat the Bomb" along to your friends for evaluation. Please encourage them to register shareware if they find that they can use it.

First Magnitude
175 E Alex-Bell Rd.
Suite 220-316
Centerville OH 45459

----- OMBUDSMAN -----

This author of this program is a member of the Association of Shareware Professionals (ASP). ASP wants to make sure that the shareware principle works for you. If you are unable to resolve a shareware-related problem with an ASP member by contacting the member directly, ASP may be able to help. The ASP Ombudsman can help you resolve a dispute or problem with an ASP member, but does not provide technical support for members' products. Please write to the ASP Ombudsman at 545 Grover Road, Muskegon, MI 49442 or send a CompuServe message via CompuServe Mail to ASP Ombudsman 70007,3536."
