WELLS FARGO REWARDING ACADEMIC PROGRESS

New Beginnings.

WRAP is proud to announce the beginning of an exciting partnership with the Reppell Diabetes Learning Center and Wells Fargo Advisors to educate fourth and fifth-graders about diabetes and living a healthy lifestyle. WRAP members unanimously confirmed the joint venture at our April 7th meeting, after a proposal by a Wells Fargo Advisors representative.

Previously, we were planning an assembly to award all Hackler students for academic progress. Our new arrangement is to assist the Reppell team with creating a week-long diabetes and health education week, culminating in a grand final assembly. We have also agreed to help with fundraising for the center.

Our organization is extremely proud to be a part of this exciting and beneficial event, and we look forward to a great success!

Next Hackler

Trip!

Monday April 25th, 2011

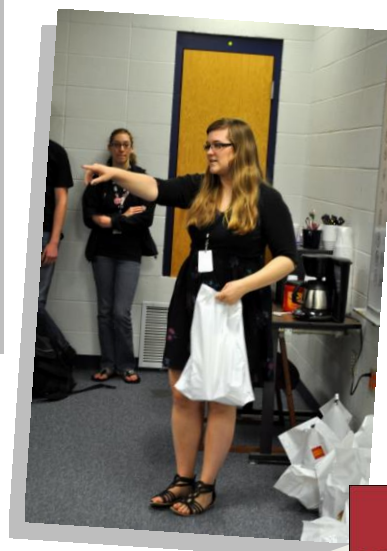

Once again we please ask that you send your student selections as soon as possible.

Remember, these students will be rewarded for their academic progress, and should have improved in their schooling over the year.

WRAP Thanks Teachers!

Yesterday, during the AAP period, the members of WRAP took the time to go to all CAB teachers and give them special thanks for all they do. They received a few gifts such as coffee mugs, pens, notepads, etc. All thanks to our Well Fargo Advisors sponsor. This also gave our members a chance to talk to our sophomores and juniors about what CAB WRAP is all about.
