

02/25/10

Dear Mountain Home school board, staff, students, and community members:

I am excited to be a Bomber! You have my commitment to work with you to provide the best possible educational opportunities for the students of Mountain Home School District.

As I stated during the interview process: "I can't do this work by myself. It is too big for one person." Please join me as we begin to learn and grow together. I humbly ask for your support as Karen and I move to our new home and begin the work.

The transition begins with this e-mail. I will do my very best to communicate well the vision I have for our work together. If you had the opportunity to speak with me and receive a copy of my commitment to MHSD and my plan for the first 100 days, please feel free to share that. As opportunities become available between now and July 1, I will seek support from Dr. Scriber and the Board of Education to begin presenting my leadership philosophy and vision to various groups.

I hope to visit each school very soon and meet the kids. Principals, please tell the students how excited I am to be a Bomber Man!

Sincerely and with Bomber Spirit,  
Lonnie Myers
