- Immense outdoor environments crammed with vehicles: combat ships, freights...

- Tons of post rendering effects: bloom, motion blur, heat distortion, image deformation...

- Real time-shadows integrated into the radiosity lightmaps for all characters

- Animated and procedural textures

- Spectacular graphics with ultra-realistic ilumination of the huge sceneries using global lightning techniques

- Outstanding visual effects: trails, lens flares, fog, glows, explosions, smoke, volumetric lights, holograms, lightnings...

- Pixel shaders for surfaces with environment bump mapping, clouds, oil pools...

- Skinning animation system with stunning hair and cloth effects.

- 3D positional surrounding audio with environmental effects, air displacement simulation and Doppler effect

- Context-sensitive original soundtrack

- Top-notch AI with advanced 2d and 3d path finding system and really engaging enemies.

- Movie-quality cut-scenes.
