

## **SLUETHS EVERYWHERE : GRAB YOUR GUMBOOTS AND GUESS WHO**

ECTS 99 Sept 5: Leading entertainment software publisher, Hasbro Interactive is proud to announce the first ever interactive CD ROM version of kids' worldwide favourite Guess Who

Based on the greatest ever whodunnit for kids, Guess Who? brings sluething to life for the player who can experience the classic characters and game play actions or take part in a new adventure mystery.

Joining Guess Who Detectives, players must solve individual mysteries, picking up clues on the way to earn the opportunity to ask an elimination question for example "does she wear glasses?" The first player to uncover the mystery Guess Who characters wins the game.

There are two great ways to play: Classic Guess Who or the new adventure mystery mode. With multiple outcomes and random selection of the suspect each time you play, no game will ever be the same twice. The new adventure mode for PC play features four different mysteries in the town of Look-About Landing, with the additional advanced mode that will help you find the culprit and their accomplice. Guess Who brings to life the environment of the fun arcade with lots of puzzling mini games to play as children work their way through the game. Classic gameplay includes all original variations of the traditional board game including single play, challenge games and championship play.

Grab your gumboots and get ready to unravel the mysteries of the new Guess Who, a great fun and very puzzling new CD ROM game, set to get super slueths everywhere on the trail.
