

# DISNEY'S ACTIVITY CENTRE, DISNEY/PIXAR'S A BUG'S LIFE

---

**Laugh and play as you buzz through the fun-filled world of bugs!**

Disney's Activity Centre offers challenging activities for young children from 5-10: explore puzzles, create your own pictures, challenge your memories and discover your musical abilities.

Here the children will explore the world of Disney's Activity Centre, Disney/Pixar's A Bug's Life from a bug's-eye point of view! They will help our hero Flik save the ant colony from an invasion of grasshoppers by finding the six pieces he needs to make a special contraption.

To win each of these pieces, the player must explore six unique locations from the bug world and successfully complete lots of playful activities - a board game, puppet show and swarms of surprises. Along the way he/she will see the sights, meet the characters, learn about real bugs, and play cool activities.

Get ready for an epic of miniature proportions!

## **Key Features:**

- Discover new adventures with the little hero Flik in the fantastic World of Bugs
- Beautiful animation utilising the designs, music and songs from the movie "A Bug's Life"
- Released to tie in with the European home video launch of Walt Disney/Pixar's "A Bug's Life"
- Explore a world of creative games and activities and improve problem-solving skills with puzzles
- Inspire creativity with do-it-yourself activities
- Learn cool facts about real bugs - use a virtual bug camera to take photos and save in your own bug scrapbook
- Play with all the favourite characters of "A Bug's Life" and discover exciting places like the Bug Circus, the Ant Island and the Bug Bar & Grill
