Product

Overview: Ninja Gaiden Episode 1: Destiny for mobile devices is a faithful port of the first three stages of the game released on the NES in 1989. The Ninja Gaiden series began with an arcade game under the same name and was followed by three classic and award winning games on the Nintendo console beginning in 1989. Over 5 million copies worldwide have been published across multiple consoles and handheld devices, including the most recent Xbox® game. TECMO Mobile is bringing the original game with innovative cinematic sequences, a first in console games, to old school fans and new fans alike. Ninja Gaiden will be available in four unique mobile episodes beginning this May.

Features:

- **Play as Ryu Hayabusa**, wielding the deadly Dragon Blade katana, to avenge your father.
- Three stages of **classic game play** feature the same moves, enemies, and epic boss battle.
- **New secrets** are included for mobile players who unleash their Master Ninja skills.
- Handsets feature the **original music and vibration feedback** on supported devices.

Information: Tecmo Mobile (<http://www.tecmomobile.com/>) officially launched in July of 2003, offering wallpapers that featured the girls of Dead or Alive®. This success continued Super Bowl weekend 2004 with the release of Tecmo Bowl®. Upcoming mobile games include a wireless version of the million-selling Ninja Gaiden® series, the international hit Bomb Jack®, and the NES classics Solomon’s Key® and Star Force®.

Tecmo Mobile works closely with Tecmo, Inc. to bring the console experience to the mobile market. Tecmo Mobile offers wallpapers, games, ring tones, and applications featuring classic brands now available on-the-go, and mobile content co-developed with next-generation games. Tecmo Mobile content is now available on AT&T, Cingular, Sprint PCS, and Verizon networks.
