NEW *COSMIC FAMILY ACTIVITY CENTER***

*EXCITING NEW PC GAME BRINGS
EDUCATION AND FUN TO CHILDREN 3 TO 7*

FOR IMMEDIATE RELEASE

LOS ANGELES, CALIFORNIA – (May 13, 1999) E3, Booth #1346 – Welcome to the wacky world of the *Cosmic Family Activity Center* brought to you by Ubi Soft Entertainment. In this all-new educational activity title children aged 3 to 7 can play and learn with the zany antics of the Cosmic Family and their pet elephant, Eddie. Come and discover the many surprises that lay hidden in their rocket home!

“*Cosmic Family Activity Center* truly is an original and unique pre-school product,” says Erica Mason, Software Product Manager, Ubi Soft Entertainment. “We are very proud to continue delivering products that are rich in learning and bursting with humor to young children. This game is sure to win over children and parents alike!”

ABOUT THE WACKY ANTICS OF THE COSMIC FAMILY

Cosmic Family Activity Center will provide hours of entertainment for children in an environment that combines the familiarity of the home with the wacky world of a space-age family who live in a rocket and own a jolly pet elephant! Children will find hours of fun helping Eddie the elephant find lost household objects, working around the house and even piloting the rocket! Specifically designed to motivate the child to advance through the different game levels, *Cosmic Family Activity Center* features an exciting treasure hunt throughout the rocket during

which children are consistently awarded at all three difficulty levels (collecting the petals of a flower, access to the creativity workshops, a fantastical reward at the end of each level).

FINALLY...A GAME THAT IS FUN AND EDUCATIONAL!

Games are designed not only to prepare the child for school, but also to encourage him/her to observe and analyze the activities that fill their daily lives from recycling to physiology. With 24 educational activities in 7 different fields, a variety of essential skills can be discovered. Learning games range from traditional learning activities(logic & geometry, memory, representations of space & time) to more creative pursuits encouraging a child to explore his/her artistic side. For instance, ‘find & match’ scenarios sharpen the child’s ability to recall and improve his/her eye-hand co-ordination while the craft workshops have children coloring, drawing and creating decals promising hours of creative development. Sure to please parents is a table of results that monitor their child’s individual learning curve.

SYSTEM REQUIREMENTS

Minimum system requirements include a Pentium 120, 16 MB RAM, 6X CD-ROM and a sound card.
