

# FURY

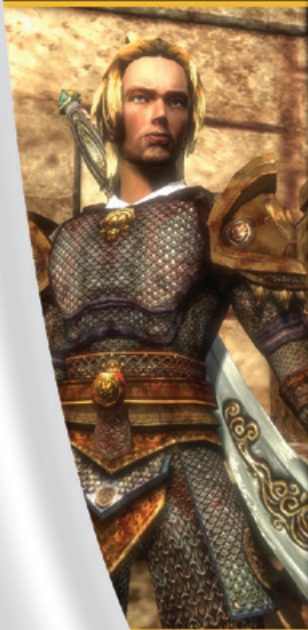

**You are one of the Chosen, a great warrior who once dominated the battlefields of the ancient world.**

Now, you have been called back – reincarnated and reborn into an age of strife and struggle, an age where your heroics are needed once more. The world sits on the brink of annihilation. Only the Chosen can take to the battlefield to fight and recover the Essence – a magical force that will save the land from destruction. Through combat, you will recover the lost memories of your former life and with, ancient magic and powers long forgotten. As one of the Chosen, you must reveal your past to fight for the future.

Overview: Fury takes the brightest elements of traditional MMORPGs and Combines them with RPG combat systems at FPS pacing. Together, this makes Fury the ultimate competitive online RPG. Advanced combat, in-depth character advancement and teamwork mix with fast-paced and diverse game types to form the core of Fury's game-play.

## Core Features:

-  **Pick up and play instant action**
-  **Fast and furious RPG combat**
-  **Flexible character development**
-  **Millions of ability and equipment combinations**
-  **Meaningful rewards for solo play, groups, Guilds and Realms**
-  **A variety of FPS-like game types**
-  **Competitive leagues and ladders**

**Game World:** Players take on the role of the Chosen; as such they will battle in the name of their realm to save it from the depths of the fade. The fade is a mysterious force that is consuming everything in the world.

**Incarnations:** Build your avatar from the ground up, specifying skills, armor and weapon sets. Choose to build an offensive 'tank' character, save it as an incarnation, then build a new version of that character set up for healing and support skills. There's always flexibility to be whoever you want to be.

**Advancement:** Take on trials to advance your avatar. These trials focus on PvP challenges; which means that players advance by playing the way they enjoy – not by grinding away on a quest.

**Unique Combat:** Fury is founded upon a unique combat system that emphasizes fast paced action, meaningful decision making and strong team tactics by blending the best elements of the FPS and RPG genres.

**Realm Model:** All players in a Realm (server) are competing not only for themselves and their guild, but also for the good of their entire realm. Each realm competes against the other realms in instanced warzones.

**Warzones:** Warzones are areas where players battle against enemies from other realms. Within the warzone, players enjoy the thrill of PvP combat, the tactics of varied game types and the satisfaction of earning significant rewards including fantastic loot.
