SingStar® brings the magic of Disney's musical classics to PlayStation®2

Step into a world of music, magic and family fun with SingStar® Singalong With Disney on PlayStation®2 (PS2™). Make it a fairytale sing along with Aladdin, The Little Mermaid, Cinderella and other Disney animated movies this November.

The wonderful magic of Disney comes from its timeless music as much as its spellbinding animation, from The Little Mermaid to Peter Pan, to Aladdin and Toy Story. With Disney fans of all ages in mind, SingStar Singalong With Disney proves that no one is ever too old for fairytales, and mum and dad will be keen to join in with the kids to show off their singing skills.

Featuring 20 tracks from Disney classics, old and new, ensure that every member of the family will find a favourite on the track list. Each track is accompanied by clips from the original Disney movie in which they appear, complemented with classic SingStar options allowing players to sing in solo, duet, or battle.

SingStar Singalong with Disney will be available in November 2008 on PS2.

Release Date: November 2008
Price: \$49.95 RRP game only / \$99.95 RRP game and SingStar mics
