

WipEout® HD

**Press Information
For Immediate Release**

WipEout® blasts into High Definition at Leipzig The anti-grav legend returns in full 1080p

- **WipEout® HD for PLAYSTATION®3 to show at Leipzig Games Convention**
- **The iconic series evolves with spectacular 1080p High Definition visuals running at a breathtaking 60- frames-per-second**
 - **Support for the SIXAXIS™ Wireless Controller**
- **Download it exclusively from PLAYSTATION®Store and race the world's best online**

Leipzig, Germany, August 22– 26, 2007: It was there back at the beginning and now it's taking the franchise into the future: WipEout® HD is set to deliver 1080p High Definition visuals running at a breathtaking 60-frames-per-second on PLAYSTATION®3 (PS3™) – and it's making its debut at the Leipzig Games Convention. WipEout HD will feature a selection of the best tracks taken from previous versions of the franchise, meticulously crafted and fully reworked to showcase the processing power of PS3™. Available exclusively by download on PLAYSTATION®Store, WipEout HD will represent the future of the iconic anti-gravity racing series when it launches in late 2007.

For the first time, players will have the option of steering their anti-gravity ships to victory in a whole new way thanks to PS3's SIXAXIS™ Wireless Controller; a feature that, combined with true high definition graphics, will have racers on the edge of their seats as they take on the best from around the world in online multiplayer modes. Up to eight players will be able to compete against each other in a range of online races.

WipEout HD features eight teams and seven game modes; Single Race, Tournament, Time Trial, Speed Lap, Zone Mode, Elimination and Head 2 Head all in stunning full HD quality and accompanied by nine fully licensed music tracks all of which are remixed in Dolby™ 5.1 sound.

Continuing the concept that was pioneered by WipEout Pure, extra game content will be coming to PLAYSTATION®Store to download and use directly with the main game. This will include extra teams, extra tracks and additional events for the race campaign mode.

WipEout HD is true next generation anti-gravity combat racing with an online twist. If you like your games to have an edge to them then look out for WipEout HD in late 2007. Or, if you can't wait, download the adrenaline-fuelled video now available on PLAYSTATION®Store or if you're lucky enough, catch it at the Leipzig Games Conference this August.
