

Biography

**Travellers Tales (UK) Ltd
The Brookdale Centre
Bluebell Stables
Manchester Road
Knutsford
Cheshire
WA16 0SR**

Overview

Formed in 1989, Travellers Tales now have offices in both Knutsford and Oxford and employ a total of 85 people. We currently have a total of 4 teams, each working on separate projects and we also have a strong technology and research department that is currently developing a PSP engine, as well as restructuring and expanding our current technology to embrace the new generation of console hardware.

Traveller's Tales has always designed its games around a very portable API, which allows ports of the games to be up to date on each console in under a day. Each individual console team is encouraged to push the limits of their hardware renderer and any enhancements are re-integrated into the engine to benefit all products.

Latest Development Information:

- We have recently finished developing **Crash 6: Twinsanity** for PS2 and XBOX in our Oxford office.
- We are just mastering **Lego: Star Wars** for PS2, XBOX and PC in Knutsford
- We are developing **Formula 1/World Rally Championship** for Sony PSP in Knutsford (using Assets from the PS2 versions)
- We are developing **The Chronicles of Narnia** for Disney, due for release of the movie of the same name for Christmas '05 for PS2, XBOX, GC, PSP and PC

Of the known sales figures we have sold a total of over **24,588,000** units.

In the last 7 years we have had **11** games sell over **500,000** units. **Seven** of those sold over **1,000,000** units, and **five** of those sold over **2,000,000** units.

Every game we have produced has been delivered and approved on time (mainly due to film tie in dates)
