POSITIONING

Give your Sim a pet to train, play with and love as their own!

DESCRIPTION

Get your paws on *The Sims™ 2 Pets*! Choose a puppy for your Sim to love as their own. Your Sim can take their furry friend to the park, buy it fun toys and stylish accessories and teach it tricks. Make sure your Sim fulfils their pet's needs and gives it lots of attention because a neglected dog just might destroy the houseplants. Ensure your Sim keeps their pup's mood up too, because if it's happy, your Sim is happy. But remember, Sim pets have minds of their own, so expect the unexpected!
