

HCA cover text for localization

In this magical fairytale universe, a tragedy has struck. The restless princess, tired of her boring, royal life has ventured out into the real world, only to be kidnapped by the maniacal Mr Schwartz, who plans to marry the young monarch and rule over all Copenhagen.

Play as the iconic father of fairytales, Hans Christian Andersen as he battles to rescue the princess and defeat his dangerous nemesis. Set in Copenhagen in the 1800s, you'll lead your famous character on a wild adventure with challenging and exciting obstacles to overcome and riddles to solve. You'll meet classic fairytale characters like Clumsy Hans and the Little Mermaid along with intriguing new characters such as Mr Schwartz and his band of evil troll helpers.

Hans Christian Andersen - The Ugly Prince Duckling casts as you as a fairytale hero like no other in this unique adventure quest.

- Breathtaking 3D graphics
- Spell-binding storyline that appeals to young and old.
- Over 60 unforgettable characters to interact with including The Ugly Duckling, The Tinderbox Witch, The Swineherd, and The Little Match Girl
- Unique system of social climbing as you gain status by achieving your goals.
- Funny, exciting and educational tasks that cater to all tastes.

Bar code:

System requirements
CPU: Pentium 4 1.6 GHz or AMD Sempron 2800+ (*)
System RAM: 512 Mb
Video card with RAM: 128 Mb (**)
Windows 2000/XP
DirectX 9.0c (installer included on CD)
Sound Card 16bit (DirectX 9.0c compatible)
CD-ROM 8x speed or higher
950Mb free hard disk space

NOTES:

* A processor with equivalent or better performance is also sufficient (e.g. Centrino, Dual-Core and Athlon - note that some of these have better performance even at clock frequencies lower than 1.6 GHz)

** 64Mb may be enough on some systems, though systems with video card integrated on the motherboard (including laptops) may not run the game
