In This Issue

Memories ...20

by Sam Ammons

Memory Expansion for your 500 can make working with your Amiga more productive and less frustrating.

Help for the Help Key ...28

by Rick Manasa

The Help Key Solution can clean up your work space, and help you to spend less time buried in your manuals and more time at your computer.

European Amiga Excitement ...48

Over 75,000 Amiga enthusiasts visit Cologne, Germany's Amiga '91 and over 43,000 crowd London's World of Commodore to break all previous attendance records. Attendees at both events were greeted by Amiga vendors from around the world with Amiga products for every Amiga user.

Reviews

The Personal Single Frame Controller ...24

by Frank McMahon

One of the most impressive products of the year, The Personal SFC from Nucleus Electronics puts professional and affordable video results within the reach of the average Amiga user.

DiskmasterII ...30

by Rich Mataka

The author calls this upgrade, released without much fanfare, the ultimate file management utility.

The Buddy System ...41

by Chuck Raudonis

As an on-line real-time guide to the Amiga, The Buddy System is much more than just a tutorial; it's a real friend.

Pixel 3D 2.0 ...55

by R. Shamms Mortier

This latest release of Pixel 3D from Axiom Software, with major upgrading from version 1.0, approaches the "can't do without" category of software.

Projects

Getting the Most From Your RAM Disk ...38

by Keith Cameron

Still finding yourself frequently swapping disks into and out of DF0:? Place your most-often used AmigaDOS commands into a RAM disk directory.

Installing and Using an IBM Mouse With Your Amiga ...43

by Phillip R. Combs

Replacing your worn-out Amiga mouse with an IBM-compatible can offer several advantages including comfort and quality.

Columns

New Products and Other Neat Stuff ...10

by Timothy Duarte

Find out about the new AmigaVision update; travel back to 1885 in Back to the Future III; learn about Electronic Arts' Deluxe Paint IV, a few new Bible study programs, and the IDS Multiboard that allows up to 32 users on-line at once.

Bug Bytes ...58

by John Steiner

New upgrades for both Professional Page and The Art Department Professional; compatibility problems with PageStream, GVP accelerator, and HP LaserJet.

Diversions ...81

Race Street Rod 2, the ultimate street racing simulation; try to escape a galactic prison in Captive, a futuristic version of Dungeon Master; brave the dangers of Central America in search of The Gold of the Aztecs; plan your garden with CDTV Garden Fax, which picks suitable plants determined by user-specified criteria.

Roomers ...85

by The Bandito

Commodore sells its three-millionth Amiga, lowers prices for Christmas. The CD-ROM war heats up. Coming soon: fax capability for your Amiga, compliments of Supra.

Programming

DePuzzle ...52

by Scott Palmateer

Try this general-purpose puzzle-solving program for a variety of brain-teaser puzzles.

ZipTerm ...66

by Doug Thain

Learn how to use Amiga Console.device and Serial.device while creating a useful telecommunications terminal program.

MIDI Quest or X-oR ...31

by Rick Manasa

Which is better for you? Rick compares the strengths and weaknesses of both.

Deduct That Interest with FC CALC ...38

by Rick Manasa

Use FC CALC to assign the correct percentages of finance charges to your personal and business credit card charges.

Finding the Right Multimedia Fit ...42

by Dave Spitler

A look at presentation packages and authoring programs which allow new users to create applications quickly and easily.

Show Report ...47

Super show coverage from the World of Commodore in Toronto. See what's hot and what's not.

Images in Dentistry ...57

by Dr. Ken Larson

Using an Amiga/Toaster combination to present before and after treatment images that assist patient education.

Amiga on Call ...61

by Dale B. Call, M.D.

Besides handling the day-to-day routine, the Amiga in this doctor's office is used to produce OB/Gyn patient education videos.

Signmaking on the Amiga ...63

by Karen Pringle

Scan logos, integrate type, and output to a vinyl cutting plotter to produce promotional material, signs, and truck lettering.

Grass Roots Amiga ...71

by William L. Roberts

While most small business owners overlook the Amiga, this landscaping business uses an Amiga 500 for all its business purposes.

Perfect Pages ...88

by Joe Vidueira

How to produce Postscript-quality pages without buying a Postscript laser printer.

Reviews

X-oR ...18

by Rick Manasa

Dr. T's universal system exclusive orchestrator can maximize your MIDI setup by allowing you to organize, create, edit, and audition sounds for every piece of MIDI-equipped gear you own.

Personal Write ...22

by Paul Larrive

Centaur Software's new word processor, Personal Write offers an alternative to the high cost of high-end word processors.

Directory Opus ...26

by Merrill Callaway

INOVAtronics' Directory Opus is a directory utility so intuitive it's a paragon of user friendliness.

40/4 Magnum ...34

by Matt Drabick

Computer Systems Associates' 40/4 Magnum accelerator card for the Amiga 2000 series is designed to make the Amiga competitive with high-end 3-D graphics and animation systems in speed at a substantially lower cost.

Secretary ...35

by Chuck Raudonis

Expert Services' Secretary turns your Amiga into a personal secretary that will keep track of your appointments, and organize both your phone database and your to-do list conveniently and efficiently.

Columns

New Products and Other Neat Stuff ...8

by Timothy Duarte

Check out the new Amiga software and hardware items in this month's column. There's a slew of new games, including Arachnophobia, Dick Tracy, Sports Challenge, Speedball 2, Team Suzuki, and two new games based on The Lord of the Rings. The DKB 2632 and GVP's Digital Sound Station are only a few of the hardware highlights.

ARexx ...52

by Merrill Callaway

Using ARexx to Translate Number Bases and Character Codes.

Bug Bytes ...69

by John Steiner

Problems with compatibility between FontCacheX and DeluxePaint IV. Saving files in Pelican Press' banner function. Compatible driver for the Genius mouse. Delphi Noetic Systems announce the release of F-Basic 4.0 and F-Basic Source Level Debugger.

Medley ...74

by Phil Saunders

This month's column explores ways to use Bars & Pipes Professional's Pipeline and Create A Tool features effectively in your music.

Roomers ...76

by The Bandito

Amiga 500 Plus compatibility argued in the UK. Predictions: lower prices for the 500, 2000, 3000 lines and CDTV. Amiga 4000?-not by the end of the year. Fewer but better game titles in the future. Easy-to-use, visually-based video editing software.

Diversions ...82

You'll have to re-learn the pieces and re-think your chess playing strategies to play Battle Chess II: Chinese Chess. Fantastic Voyage is based upon the 1966 Sci-Fi movie of the same name. Become a corporate giant in Big Business. Altered Destiny is a good introduction to the state of the art in adventure gaming. Free King Graham's family and restore his kingdom to its former glory in King's Quest 5. And finally, ransom parts of your brain with Spam while defending yourself from pieces of meat by throwing fish in Monty Python's Flying Circus.

PD Serendipity

Mines, maps, and more are featured in the latest Fred Fish Disks and, although not public domain, Psygnosis, Ltd.'s special Lemmings demo offers a free taste to Lemmings addicts.

DeluxePaint IV ...15
by R. Shamms Mortier

With new options and capabilities, Electronic Arts' DeluxePaint IV offers some very good reasons why you should upgrade.

Miracle Piano Teaching System ...18
by Christopher Piper

Miracle Piano Teaching System combines hardware and software for an innovative approach to learning the piano that's fun.

Scenery Animator ...22
by Frank McMahon

More than an upgrade, Scenery Animator is a completely new, feature-packed 3-D landscape animation program.

Real-3D Pro 1.4 ...24
by R. Shamms Mortier

The "best Amiga 3D software in Europe" has arrived in North America with the capability to turn the draftsman's vision into colorful and believable 3-D reality.

MegAChip 2000/500 ... 28
by James Botelho

A review of DKB Software's 2MB chip RAM expansion board for the A500/A2000 user.

Epson EPL 7500 ...34
by Merrill Callaway

A quality PostScript laser printer for your Amiga that comes standard with 2MB RAM and 35 fonts.

MultiStart II Board ...39
L.S. Lichtmann

DKB Software's MultiStart II allows Amiga users to switch back and forth among three operating systems from the keyboard.

Video Blender ...40
by John Steiner

Unlike The Toaster, Video Blender can blend video signals in some truly unusual ways.

Interface Design Kit v1.5 ...53

by Dave Spitler

INOVAtronic's collection of clip art has all of the elements that interactive programmers will need to build the classiest screens ever.

In This Issue

Do You See a Change in Color? ...52

by John Iovine

Do we really need 24-bit color or has color resolution already passed the point of the human eye's ability to perceive it?

"Semi-Automatic" Painting and Animation ...56

by Kevin Lude

All you need is a good eye, a sharp imagination, and the ability to draw a single straight line.

Screen Photography ... 58

by Patricia Murphy

Patricia Murphy offers more than just tips to producing hardcopies of your Amiga masterpieces. It's a short course in successfully photographing computer screens with a 35mm camera.

Programs That Work ...66

by Dave Spitler

First in a series of multimedia tutorials, Part 1: Graphics and Logic looks at programming structures and creates two simple programs with the reader.

Show Report ...71

1992 Winter CES in Las Vegas. See the future of consumer electronics at a glance, featuring Commodore and the latest Amiga products.

Columns

New Products and Other Neat Stuff ...8

by Timothy Duarte

Check out this month's batch of new products. Emulate an IBM with the CrossPC and CrossDOS package, utilize the interactive computer algebra system used in Maple V for AmigaDOS 2.0, or jazz up your video productions with VideoFonts. For entertainment, there's ELF, Darkman, Leander, and more.

Medley ...46

by Phil Saunders

This month Medley looks at audio digitizing to produce instruments for Amiga music programs.

The Video Slot ...50

by Frank McMahon

Introducing a new monthly column designed to improve your Amiga video (whether you're just starting out or working at a television studio) by reviewing new products, tutorials, hints, and tips.

CLI Directory ...60

by Keith Cameron

Review basic principles and use of the CLI environment with its extra power and other benefits.

Roomers ...68

by The Bandito

The Bandito may be irreverent but never irrelevant! This month, Commodore's head honchos take it on the chin.

Bug Bytes ...75

by John Steiner

The latest in hardware and software tips, workarounds and upgrades for the Amiga user.

Diversions ...82

Waking up after seven years of cybernetic sleep is tough, but then finding yourself Spacewrecked 14 billion light years from Earth is enough to ruin anyone's morning. Arachnophobia brings out the spider-stomping crusader in all of us. Oh No! More Lemmings should prove to be as popular as the original with 100 new levels of game play. Conflict: Middle East pits Arab against Israeli. In Silent Service II you command a World War II submarine. Murder! is a whodunit with up to three million cases. Action Stations! is a serious naval surface warfare simulator.

ARexx ...90

by Merrill Callaway

This month's column looks at iterative technique and offers a simple program that demonstrates recursion in ARexx by solving a famous brain teaser.
