

FinderExpress™ v1.1.2
©1992-93 Logical Solutions, Inc.

FinderExpress is an installer application that modifies the Finder to allow high-speed, high-efficiency file copying. Once installed, use the Finder's copy and duplicate functions as normal. The average speed increase has been 300%.

Zooming rectangles may be removed to speed up Finder window responsiveness as well.

Balloon Help is there if you need on-line assistance.
