Logan's Back

Syphon Filter Breaches PSPs Perimeter Defenses

**-A black op mission for an agency that doesn't officially exist-
-The fate of the world lies in your hands-**

Gabe Logan, the renowned Precision Strike Operative from Syphon Filter is back and working for a black ops US agency that doesn't officially exist – even to the President! After being listed as M.I.A after his previous mission, Gabe returns for another deadly surgical strike, but this time on the PSP™ (PlayStation®Portable).

Syphon Filter Dark Mirror™, due for release in the summer 2006, has no rules and no chain of command. Logan's job is to infiltrate, recon and execute decisively - on his mission to retrieve Dark Mirror...a weapon which threatens the lives of all those on the planet...

Syphon Filter Dark Mirror is tailor made for PSP, which allowed the developers to create exclusive and exciting gameplay linked to each of Logan's main objectives. To 'Infiltrate' locations around the globe, Gabe has acquired a new rifle that uses the latest darts technology, and now has access to a range of vision enhancement goggles. There is enhanced AI with new behaviours and awareness states, such as idle, curious and alarmed! Once in Logan has to carry out life or death decisions thanks to precision aiming and new lethal melee attacks with hands and knife.

Syphon Filter Dark Mirror also features a host of other new additions to make gameplay more enjoyable and realistic; the graphics engine has been completely overhauled to take advantage of the PSP's full visual capacity; a dynamic difficulty structure has been implemented to prevent frustration creeping in; plus there is a bonus mission for fans of the franchise which clarifies the ending of the previous episode - Omega Strain.

The game includes 23 single player missions and five multi-purpose online maps. You have the ability to create your own agent, and the highest ranking players can play as Gabe or as the enemy Commander and have access to unique weapons.

Syphon Filter Dark Mirror allows you to experience the rush of being on the front-line in the war against global terrorism. Keep your senses alert because one minute you are engaging in undercover recon and the next you're blasting your way through a guarded gate or crashing through a skylight on a mission to save the world.

-ends-

About PSP™ (PlayStation®Portable)

PSP™ (PlayStation®Portable) is a new handheld entertainment system that allows users to enjoy 3D games, with high-quality full-motion video, and high-fidelity stereo audio. With graphics rendering capability comparable to that of PlayStation®2, PSP™ features a 4.3 inch widescreen, high-resolution TFT display. The PSP™ system's storage medium – UMD™ (Universal Media Disc) – is a compact yet high-capacity (1.8GB) optical disc. With a wide range of accessories and connectivity options, including Memory Stick Duo™, USB 2.0, IR port and Wireless (WLAN) functionality, PSP™ is the new entertainment platform from Sony Computer Entertainment.

About Sony Computer Entertainment Europe Ltd.

Sony Computer Entertainment Europe (SCEE), based in London, is responsible for the distribution, sales and marketing of PS one®, PlayStation®2 and PSP™ hardware in 104 territories across Europe, the Middle East, Africa and Oceania. SCEE also develops, publishes, markets and distributes games software for the three formats, and manages the third party licensing programmes for these formats in the PAL territories. At the end of September 2005, over 40 million PS one® consoles had been shipped across these PAL territories, over 102 million worldwide. Between its European debut on 24 November 2000 and 29 November 2005, over 37 million PlayStation®2 consoles have been shipped across the PAL territories, over 100 million worldwide, making it one of the most successful consumer electronic products in history. Between the launch of PSP™ in Japan in December 2004 and 21 October 2005, over 10 million PSP™ systems have been shipped worldwide.

More information about PlayStation® products can be found at www.playstation.com and www.yourpsp.com or visit the Virtual Press Office at www.scee.presscentre.com.
