

## *DA Definitions*

*Note: This lists desk accessories which are currently available to the system*

- *DA Name : Name*
  - ◊ *DRVR Size = Size of the DRVR resource which contains the code for the DA*
  - ◊ *File Name = Name of the file where the DA is located*
  - ◊ *Path Name = Location of the file*
  - ◊ *Attributes = Since a DA is actually a form of driver, these active flags specify how the operating system should interact with the DA.*
