**HUMAN EXISTENCE HANGS IN THE BALANCE AS CAPCOM® ANNOUNCES  
*LOST PLANET™* FOR XBOX 360™ AND MOBILE PHONES**

***- Extreme Conditions of Epic Proportions Await in Gripping Sci-fi Action Shooter -***

E3, LOS ANGELES – May 10, 2006 – Capcom®, a leading worldwide developer and publisher of video games, today showcased **Lost Planet™**, a riveting sci-fi action shooter for Xbox 360™ video game and entertainment system from Microsoft and mobile phone platforms. Set within the merciless frozen tundra of a hostile planet, humans struggle for survival as conflicts arise between man, the surrounding indigenous creatures and the monstrous beings that have invaded. With a gripping single player campaign and numerous multiplayer modes, **Lost Planet** for Xbox 360 promises to deliver an intense cinematic gameplay experience when it is released throughout North America in Q1 2007. The mobile phone edition is scheduled to launch just prior to the console release on Xbox 360.

In **Lost Planet**, human snow pirates navigate VS (Vital Suits) through hostile ice-covered environments, fighting against the indigenous Akrid creatures for the precious thermal energy they need to survive. For one such pilot named Wayne, death almost seemed imminent until he was fortunately rescued. However, he can only remember a few fragments of his past including the slaying of his father by the monstrous beings. Yet under the veil of ice, a devious plan has been set into motion by the Neo Venus Construction Corporation (NEVEC) who plans to sterilize the world of all Akrid and snow pirates alike. What really happened to Wayne? Who is behind NEVEC and why are they plotting this destructive scheme that could potentially annihilate human kind? Encounter valuable allies and dangerous enemies on Wayne's search for the truth.

Taking full advantage of Xbox 360's unprecedented power, **Lost Planet** will contain an unrivalled level of detail as advanced light sourcing is used to ensure a realistic presentation. Enormous world maps unfold as players battle the menacing creatures during blistering weather conditions throughout vast snow fields and deserted cities on foot or with armed vehicles. Fostering a real-time loading system, players can expect a seamless experience that leaves them completely immersed. Multiplayer modes add to the value of **Lost Planet** by allowing gamers to partake in intense team battles via Xbox Live® online game service. Expanding the **Lost Planet** world beyond the home, the mobile phone edition will feature a storyline that complements Xbox 360's version, downloadable content, multiplayer options and original gameplay mechanics.
