

JOYTECH Advances the Portable Peripheral!

JOYTECH proudly puts portable power in the palm of the hand, with its amazing new range of peripherals for the Game Boy Advanced, known simply as "JOYTECH Advanced".

The JOYTECH Advanced range, will be available from launch on the 22nd of June, and is ready and waiting to take full advantage of the awesome power of the Game Boy Advance. Always putting the gamers need first, JOYTECH has developed a spectacularly innovative, original, and totally comprehensive range of sophisticated peripherals, set to transform the Game Boy Advance in to a powerhouse of portable pleasure!

The groundbreaking JOYTECH Advanced range includes:

- Spiro Light – 32bit graphics, mean nothing in the dark. Spiro Light shines with no need for batteries
- Advanced Protector Case – Advanced, safe protection, perfect for your portable pal
- Multi Player Link Cable – Up to four players can join in the fun, thanks to JOYTECH
- Battery Grip Including AC Adapter – Combining power and comfort, in one stylish peripheral
- Light Magnifier – Making the action bigger, brighter and a whole lot better
- In Car Power Adapter – Car journeys become a lot more fun, with JOYTECH'S In Car Adapter
- Battery Station – When the juice runs dry, JOYTECH'S Battery Station provides the elegant answer
- Rechargeable Battery And AC Adapter – providing eight hours of gameplay from a single charge
- AC Adapter Including Converter – Providing continuous power wherever you are

The JOYTECH Advanced range enhances the Game Boy Advance, providing a richer gameplay experience. JOYTECH Advance. Advanced fun, for an advanced age. Let's go get gaming...
