## 1.2 Introduction

Introduction

Welcome to AMIL (Amiga Main Internet List).

This is (or at least tries to be) a full (???) listing of every (???) person - company - mailing list - newsgroup - zine dealing with the Amiga.

Let's try to make it clearer. This guide contains (\*) the following :

1. Internet and/or Fidonet addresses of persons associated with the Amiga. That includes Programmers (Coders), Music & Gfx Artists, Managers, Producers, Hardware Designers, etc. and a list of every (???) "program" that each one of the previous persons has "coded/designed".
2. Internet and/or Fidonet addresses of companies associated with the Amiga. That includes Distribution Companies, Hardware/Software Development Companies, etc. (\*)
3. Mailing lists dealing with the Amiga in general. (\*)
4. Usenet Newsgroups dealing with the Amiga in general. (\*)
5. Zines dealing with the Amiga in general. (\*)

(\*) NOTE1 : Numbers 2 - 5 are still under development.  
I already have (stored in a database) a list of over 30 companies, 10 mailing lists and 15 newsgroups, but that has to be first converted in a "readable" format. Ideas are welcome.

ATTENTION

-----

THIS VERSION IS HIGHLY EXPERIMENTAL AND INCOMPLETE

Tassos Hadjithomaoglou

NOTE2 : I will try to upload a new version to Aminet every month or so, as long as this list is maintained. ~~~~~

## 1.3 Copyright-Distribution-Disclaimer

---

## 1.4 Comments

### Comments

This list cannot be expanded without the help of users like you.  
So if you have any additional information/corrections/suggestions,  
i would be very gratefull if you could send them to  
me

All contributors will be credited with their email addresses  
unless denied by them. ~~~~~~

## 1.8 Other Nets -> Internet

Convert addresses of other nets to addresses of Internet

Fidonet~~~~->~Internet

NOTE : If you need more nets (not just only Fidonet) just mail me ↔

. ~~~~~

## 1.9 Fidonet -> Internet

Conversion of Fidonet addresses to Internet addresses

Fidonet : zone:net/node.point (firstname lastname)  
 Internet : firstname.lastname@pXX.fXXX.nXXXX.zX.fidonet.org

Where : p=point (not needed)

f=node  
n=net  
z=zone  
X=number 0-9

ex.

Fidonet : 2:292/603.10 (Nico Francois)

Internet : Nico.Francois@p10.f603.n292.z2.fidonet.org ~~~~
