### 1.2 InTroDuCTiOn

(-) InTRoDuCTiOn (-)

In shorts I'll tell you the story of this unexpected V2.0 of My COol DiarY, a little freeware utility released about a year ago by Digital Chaos. One day kRs/DTC found in the chaos of his HD the source of McD 1.4, written by another DTC guy, LrY. He knew some people were using that program, but he also knew that it could have been much better with some little improvements. So he decided to make them and he rewrote most of the original code, speeding up, debugging and improving it.. You can see the result in this new 2.0 version... Use 'n' EnJoY It..

- o Most of the code rewritten and improved..
  - o Font adaptive GUI (Now you can use McD with any WB font).
  - o Status field, kill confirmation, sort option added.
  - o .prefz file removed (Now there's only the .McD diary file).
-
