This little MIDI-Tools send's the <GENERAL MIDI MODE ON> - Message
to switch any GM-Instrument to GM- (Multi-) Mode automatically.

            ** GM_on   is   F R E E W A R E **

It was created to automize the NASTY mode-switching each time my

            Korg~05R/W
             was switched on ..
You can place it in your startup-sequence or call it before starting
your sequencer, MIDI-File-Player, etc.

 GM_on should work fine with any GM-Instrument !!
