Ced icons is CARDWARE so if you like it and use some of my icons, brushes etc. you'll have to send

ME

a funny postcard.

This is NOT the last time you'll see this text about the CARDWARE stuff...

1.3 Icons

Well, I thought it was time for me to make a contribution to the MagicWB package. ←

I have made a whole new Prefs-template because the old one is so ugly. I don't know if you will like mine better but I love it!!!

In the Prefs-drawer you will find some Prefs-icons (Strange...) with MY new template. Use them!!!

If some of you think that my icons are pretty much alike those from Martin Huttenloher or Roman Patzner etc. your're probably right cause many of the icons in this package are nothing more than repainted MagicWB icons so if you find some of your icons in this package a bit modified you should be happy cause that means that it's great!!!

Ced icons is CARDWARE so if you like it and use some of my icons, brushes etc. you'll have to send

ME

a funny postcard.

Well there ain't much more to say you'll see what they are for.

1.4 TM-Brushes

They are all anim-brushes and that's the biggest change that I have made. I know that anim-brushes need a bit more memory but they are looking far better than a single brush.

The ones in the 'MWBDock-Brushes' drawer is the same as you get with MagicWB 2.0, BUT mine are Animbrushes!!!

The icons in the 'Other_Brushes' drawer is just some other brushes...

Well... Check them out!!!

1.5 Copyright stuffs

COPYRIGHT STUFFS

MagicWB is Copyright ©1992-1994 by Martin Huttenloher.

This package is CARDWARE.
So if you like it and use some of my icons, brushes etc. you'll have to send me a funny postcard.

There is NO Copyright at this Icon collection but there is still some things that I would like you to consider:

You may modify the icons for personal or public use so long as you acknowledge my name in your credits AND you MUST send me a copy!
(I want to see what you've done with them =-))

You may not use the icons, or the imagery of them, unchanged or not, on any other platform besides Amiga. If you do that, I'll kill you.

These icons may be freely distributed via BBSs, InterNet/UseNet, software libraries such as Aminet CD-ROM, and magazines as long as the archive is not modified in any way!!!

I will NOT be held responsible for any damage caused by using the icons contained within this archive. You, the user, take full responsibility by using these icons.

(But I can't see how some icons might damage your system!)

IMPORTANT

As I told you this package is CARDWARE so if you like them and use some of my icons, brushes etc. you'll have to send

ME

a funny postcard.

Or even better, send me a large amount of \$...

Even if you feel the icons are not worth any donation, I'd still love to hear from you because its good to know who (and how many) are using them! I want to hear what you think of them - whether they're good, bad or totally suck! (Hope not :-))
