1.2 x-files - introduction

                    introduction

here it is; the fifth issue. the first step is done...
this time a litte bit earlier and a little bit shorter, because i spent much
time in planing the convention '96 party and i had to plan my holidays...
:-)
ok, this is a convention '96 release. i hope you were at the party and had
much fun there.
and never forget: read, spread and support the x-files !!!! :-)

ok, thanx for now and see ya soon...

                       big-rat

1.6 wanted

```
           for the x-files i'm searching for up-to-date news:
```

with news i mean:

```
        - memberlists (with username and function (and country if possible))
        - newcommers (with old group if possible)
        - "go-away'ers" (with reason like new group, kicked, left scene))
        - general news about groups (like next releases, planed projects
                                 planned parties, and so on...)
        - information about parties (like invitations, results, reports,
                                 visitor-lists)
        - news about everything that's worth interesting
```

i can not check every news i get. so it is possible, that an error appears in
the x-files. don't blame me for this, but please mail me the error with the
correction and i will fix it immediately.

i am also searching for ascii-logos for x-files.

so, if you have news, corrections, comments, suggestions, ideas or anything
else worth mentioning, then contact me at:

```
            contact-addresses
```

1.7 future plans

```
      - i want to make a real news-disk-mag out of x-files, not only
        an amiga-guide-mag...

      - i want to present more news and information... :-)
```

1.8 x-files - contact-addresses

MEKKA 1996

Mekka 1996 will be organized by - amable -

29th - 31st of March 1996  in  HITTFELD / GERMANY

 I. Introduction / About Mekka '96
 ~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~
  No long introduction... There will be a new Demo-Party in germany.
  We do not expect it to be GiGANTIC or GREAT ... we want it to be small
  and special. We try to connect a little group of talented guys, cheap
  entrance fees and some kewl prices for the Compos.

  The main intention of MeKKa is, to create a GATHERING , with some WiRED
  attenders who'll make it to THE PARTY of the year.
  [Sorry... don't know how to insert "Assembly" in this ;)]

  We expect you to go on a pilgrimage to demo-Mekka'96 and have fun you
  never thought about.

 II. Where and When
 ~~~~~~~~~~~~~~~~~~~
  The Party will be held near Hamburg, the second largest city in Germany.
  We will rent a congress center with room for about 700 persons and 500
  computers.
  First we thought of renting the "Congress Center Hamburg" ... But we
  could not know how many guys will enter the arena -> so we've decided
  to use the smaller room! We do NOT expect more than 700 guys to attend...
  really ;)!

  Date    : Friday 29 to Sunday 31 of March 1996
            The doors will be opend on Friday at 18h [6pm]

  Location: Veranstaltungszentrum "BURG" Seevetal in Hittfeld/Germany
            That's very close to Hamburg.

  The center lies between 3 motorways so it's the easiest way to get there
  by car/bus, but to come by train and airplane will be possible too
  although it is more expansive.

 III. Costs
 ~~~~~~~~~~~
  As you know Mekka will be held the first time in 1996. To calculate how
  many people we have to expect please registrate. Therefor you will get
  a reserved table for your computer(s). The earlier you reserve the better
  will be the place of the table reserved for you in the party-room (to read
  about registering scroll down a bit).

  Entrance fee:
  .............
  You pay in advance  : DM 25,- / person (about 17 US-Dollars)
  You are registered  : DM 30,- / person (about 21 US-Dollars)
  Without registration: DM 35,- / person (about 25 US-Dollers)
```

The organisation is NON-COMMERCIAL!!! As usual the entrace-fee will be
distributed among the winners of the competitions.

We will be able to change foreign currency into german deutschmarks
during the hole party. Please concider that our exchange-rate may not
be very good.

The Price includes:
~~~~~~~~~~~~~~~~~~~
   - a table where you can place your computer
   - electricity
   - access to the party-network (if we get a network, see below)
   - the oxigen you wast at the party-place ;)

If you don't bring a computer you are not entitled to get a table
[There will be enough chairs]

IV. Features
~~~~~~~~~~~~~
We have not listed all of the features yet but here a list of the most
important points:

   - The party-place is mostly one big hall !

   - There will be a big screen of 5,5 * 3,7 meters !

   - There is a very nice SOUND SYSTEM available in the "BURG"!

   - Public voting for everybody ;)

   - There'll be a big "MAGIC-THE GATHERING"-Compo!
     Organiser : Ratzkartoffel/X-PoSuRe [reach him in our BBS]

   - Sleepin' : suXX ... ;) ... there are two little rooms reserved for
     tired guys ! QUIET rooms !

 V. Competitions
~~~~~~~~~~~~~~~~~

  -= General Competition-Rules =-

   - The Rules may change until the final invitation-text.

   - At least one of the Competitors must be present.

   - We must have all entries until Deadline (see below).

   - If there are too (and I really mean toooooooooooo) many entries we
     will make a preselection.

   - The entry must be released at the party - not at any time before.
     [Please release a "final"-Version of your productions at the Party]

   - There are only PC-Competitions.

```
-= Demo/Intro Competition-Rules  =-

 - The Competition-PC will have following configuration:

    Prozessor       : i486DX2-66 (maybe better)
    RAM             : 8 MByte
    Videocard       : PCI-Board with fast Videocard and 2 MB RAM
    Soundboard      : - Gravis Ultrasound with 1 MByte RAM
                      - Creative SoundBlaster 16 ASP
    Operating System: DOS 6.2
    Memory Configs. : anything possible with HIMEM.SYS or EMM386.EXE
    Max. Base-Mem   : 600 KByte (= 614400 Bytes)

 - The production should support a GUS or/and SB!

 - No precalculated animations are allowed.

 - 1oo% VGA-Register-Compatible Videomode MUST BE SUPPORTED.

 - Additional you can use VESA 2.0-Videomodes too! Look for UNIVBE51!

 - Your can test your production up to 3 times on our PC to fix the
   latest hardware-problems.

-=  Demo  =-

 - Maximum size: 4 MByte (= 4194304 Bytes)

 - Only the first 15 min. of the Demo will be shown on the big screen.

-=  Intro 64KB  =-

 - Maximum size: 64 KByte (= 65536 Bytes)

 - Only the first 10 min. of the Intro will be shown on the big screen.

-=  Intro 4KB  =-

 - Maximum size: 4 KByte (= 4096 Bytes)

 - Sound (Adlib or whatever you want) is possible too.

 - Only the first 5 min. of the Intro will be shown on the big screen.

-=  Music 4ch  =-

 - Maximum size: 512 KByte (= 524288 Bytes)

 - Allowed format: Must be playable with latest Cubic!

 - Module will be played with the latest Cubic-Player on a PC defined
    in the "Demo/Intro Competition-Rules".
```

- MIDI is not allowed

- Only the first 4 min. will be played during the competition.

-= Music Multichannel =-

- Maximum size: 1 MByte (= 1048576 Bytes)

- Allowed formats: Must be playable with latest Cubic!

- If your prefered Module-Format is not in the list above you must
  bring the right module-player too.

- MIDI is not allowed

- Only the first 5 min. will be played during the competition.

-= Graphic =-

- Maximum 640x480 and 256 colors

- Allowed formats: GIF, BMP, PCX

- We must get two versions of this final graphic. One with and one
  without the sign of the gfx-artist.

- The picture must be pixel hand-drawn - scans and calculated pictures
  are not allowed.

- We need at least two significant steps of the picure.

-= ANSi =-

- No animations are allowed.

- Not more than 200 Lines!

- Will probably be shown with AcidView

-= 3D-Object =-

- Don't know the rules yet. They will follow in the very next version
  of this invitation-file.

- We don't really know if we should make this compo!?

-= Surprise =-

- We will have some surprise-competitions at the party too.

- Hey! Please stop reading this part. If we would tell you something
  about this compo it won't be a surprise any longer! ;)

```
    VI. Prizes
    ~~~~~~~~~~
     The prizes depend on the number of attenders.

        - At least 8.000,- DM will be given.
          There will be both, hard- and softwareprices.

    VII. Voting
    ~~~~~~~~~~~
     There will be 1oo% public voting.

        - This does not concer the surprise-competitions!

        - If there are less than 200 attenders at the Party, there will be a
          jury of known guyz having a weight of 3o%!
          We DO NOT WANT A JURY and hope enough freaks are comming!

    VIII. Network
    ~~~~~~~~~~~~~~
     Many parties in the last time had a party-network and we are trying to
     have one too. It has a lot of advantages e.g.

        - voting will be more easier and secure and

        - all the entries of the competition will be stored on the server and
          will be free to download a competition is finished.

     We do NOT guarantee the network, but we will try very hard to get one!

    IX. CD-ROM
    ~~~~~~~~~~
     We think that a CD-ROM is not the most important feature of a Party (!)
     but we hope to have a Party-CDROM anyhow. We will try hard too!

    X. T-Shirt
    ~~~~~~~~~~
     Nearly every party has a Party T-Shirt. We will produce a T-Shirt too...

     It will be a very HIGH-Quality-shirt. It'll be designed by a well known
     local guy, who already designed VERY kewl shirts.

     You'll love it but remeber... it's limited!!!

    XI. Sponsors
    ~~~~~~~~~~~~~~
     We have not finished the conversation with all of our sponsors so we are
     not able to give you a list of them yet.

        - We can tell you that one of our sponsors will be a well known
          international software-producer! [NOT MS! ;) ]
```

The complete list of sponsors will be released in a few days!

XII. Registration
~~~~~~~~~~~~~~~~~~
 There are a lot of reasons why you should registrate. If you send the
 registration form back to us you will

   - save money because of a reduced entrace-fee (see above),

   - get a better table (next the stage and the projector) and

   - help us to calculate how many people we have to expect.

 If not we cannot guarantee a free table for your computer.

 PLEASE CHOOSE A PASSWORD for protecting your registration and your
 directory on the party-server (if we get one, see above). Nobody else
 but you will have access to your handle.

        TNX in advance!

 IF YOU WANT TO PAY IN ADVANCE :

                           The Official Invitation
                          -------------------------
```

1.> WHAT

   This file wants to tell you that there will be a quite delicious
   computer demo festival this year, involving all the platforms which are
   important in the guild of the demomakers, namely Amiga, PC, C-64,
   Archimedes and the Atari ST/Falcon. Think twice before missing it!

                   \-/-\-/-\-/-\-/-\-/-\-/-\-/-\-/

2.> WHO

   This event is held by three of the most experienced party-organizer
   teams in Germany: the people behind the 680XX-Convention (1993), the
   Black Box Symposium (1995) and the Fried Bits. For the Symposium '96,
   which we plan to become the best German party so far, these three teams
   fusioned for not standing in competition to each other but joining
   forces and making everything better than ever!

   The groups involved are: Polka Brothers, Lego Club, Phantasm (for
   Amiga), Avena, Absence (for Atari) and Oxyron (for C-64).

                   \-/-\-/-\-/-\-/-\-/-\-/-\-/-\-/

3.> WHY

   We, the organizers, observed that the amount of poorly organized and too
   commercial parties increased during the last years, even outside of
   Germany. Our country has always been well known for low-standard
   parties, but 1995 has been the most disappointing year.

   We (and probably the rest of the scene, too) felt that it was time for a
   party where you could have fun again, a party that would be well
   organized, and NOT a party at which you feel that not you is what
   counts, but the money.

   We don't want to rent huge congress centres, we don't want to organize a
   party with hundreds of super-duper hyper interactive virtual multimedia
   features, we don't want to make money – we all just want a party where
   you are welcome to have a nice time; which is, after all, what a party
   is ought to be.

                   \-/-\-/-\-/-\-/-\-/-\-/-\-/-\-/

4.> WHEN

   Eastern 1996. Four days of fun and experience:

   START 5th April, 1200 CET
   END   8th April, 1200 CET

   The entrace fee will amount to 35DM. We will not accept foreign
   currencies.

                   \-/-\-/-\-/-\-/-\-/-\-/-\-/-\-/

5.> WHERE

A nice convention center called "Veranstaltungszentrum Burg Seevetal",
which is located in the very near south of Hamburg, Germany. It offers
place for about 1000 people including computers, a really big screen and
surround sound. You don't have to be afraid of 24h of loud music,
though...

You can reach it via everything. If you're going to come by train, you
first have to reach Hamburg Hauptbahnhof (main station) and take the S3
or S31 (on Gleis 4, HVV price 4DM) to "Harburg", where we will pick you
up with the Symposium shuttle service. Alternatively, you can use of
the hourly public busses to "Seevetal".

Coming by plane, you will use the bus shuttle service to the station
"Ohlsdorf", wait for the U1, get out at Hamburg Hauptbahnhof and, again,
take the S3/S31 to reach "Harburg".

If   you   arrive   by ship, then you'll have to take the U3 at
"Landungsbrücken" to reach the Hauptbahnhof.

If you come by spaceship, there is a big area on the other side of the
Symposium convention center; please try to land it there (parking is of
course free).

For the case that you own a car, you have two possibilities to arrive:
The A1 ("Autobahn 1") and the A7. Coming from the north or south via
A7/B4, you have to leave at Abfahrt "Fleestedt". Then roll down the
"Hittfelder Landstraße" (part of the B4) southwards and follow the sign
"Veranstaltungszentrum". Coming from east or west via A1, take the
Abfahrt "Hittfeld" and follow the signs.

                    \-/-\-/-\-/-\-/-\-/-\-/-\-/-\-/

6.> COMPETITIONS

    Yes, a lot! Not only demo and intro competitions for all the computer
    systems and the usual module, multichannel and graphics compos are
    included.   There will also be compos for video demos, a wild compo, a
    coding compo (4K-intro) etc.   We   will   even   hold an Acorn
    Archimedes/RISC-PC competition, if there will be enough entries present.
    Or a Silicon Graphics democompo, if more than one entry exists... No
    limits!

    ** CONDITIONS FOR COMPETITION ENTRIES (brief overview)

        PREFACE:
          ANONYMOUS means that the entries may not give a hint to who the
          author is. You may of course deliver a version with name tags,
          which will be the spread one.

        Graphics: max. 640x512 24bit, 1.4MB. IFF(-24), PNG or JPEG.
          (ANONYMOUS!)

        ProTracker Module: We will show 3 minutes, max. 1MB unpacked.
          (ANONYMOUS!)

        Music: max. 1.4MB executable. We will show 3 minutes.

     (ANONYMOUS!)

   Coding: No music, one effect, 4KB max., We will show 2 minutes.
     (ANONYMOUS!)

   Intro: 40K Amiga, 64K PC, 96K Falcon. We will show 5 minutes.

   Demo: 4MB, no Assigns or similar installation. We will show
     15minutes max.

   Video: VHS or S-VHS cassette in PAL format. 10 minutes max.

   Wild: No rules! ;-)

 ** CONFIGURATIONS

   Amiga: must run on AGA, 020, 2+4MB. Will be shown on a 030/50MHz.

   PC: must run on a '486 8MB. Will be shown on a P75.

   Archimedes: RISC PC 600.

   C64/Falcon: Standard configuration.

 The prizes will entirely consist of sponsored stuff, as was the case at
 the former Symposiums. For more detailed info concerning them or
 the competition rules, see MORE INFO...

                   \-/-\-/-\-/-\-/-\-/-\-/-\-/-\-/

7.> PLUS

   A number of surprises like prominent guests from software houses and
   computer companies, Internet connection, quiz games, nude girls and much
   more attractions ;-)

                   \-/-\-/-\-/-\-/-\-/-\-/-\-/-\-/

The Gathering 96

This is a preliminary official invitation to The Gathering 1996

-------- Introduction ------------------------------------------------

                    CRUSADERS Productions ARE BACK!!!

AND THROUGH THE KANDU ORGANIZATION THEY ARE QUITE DETERMINED TO MAKE
THE GATHERING 1996 INTO SOMETHING DIFFERENT ALTOGETHER.

We have heard your complaints about bad choice of locations, loss of power,
poor networking, expensive entry fees, prizes that were not paid until many
months after the party and so forth...

AND WE CORRECTED THEM ALL (well, most of them anyway).
By using only professional companies instead of doing everything ourselves,
everything you need for a great party will be there.

                  IN TIME, IN PLACE and IN A WORKABLE ORDER
                  ----------------------------------------

Together with some the largest companies around, we're going to make the
THE GATHERING 1996 more fun, more non-stop action, more no-holds barred
computer action than any other party!

Just a pie in the sky? Read on...

-------- hot spots ---------------------------------------------------

LOCATION:    "VIKINGSKIPET" in Hamar, north of Oslo, Norway.
             The main hall from the '94 Olympics in Norway.
             (If you don't know what the Olympics are, you are just the
             guy we want at TG, and believe us, the hall is big!!!)

             12.000 square meters of pure pleasure.

             3000+ seats, tables and SEPARATE poweroutlets available.
             Every person gets a seat, every person gets a tablespace
             and every person gets his own grounded poweroutlet.
                (1 outlet per person, bring your own grounded
                 multiple power outlets to have more than one item
                 connected at a time).
```

More than 20 seperate wardrobes with 4-10 showers per wardrobe. Don't panic, bring your own towel.

Catering will be provided. In our next info, prices and a day-to-day menu will be included. Junkfood and not-so-junk food will be served at your leisure.
Silicone and methane lifeforms make special arrangments.

PARKING: Big parking facilities available immediately outside the hall at no extra charge. Will take any kind of possible vehicle you can arrive in. Extraterrastials call ahead for separate reservations.
Limousine service available.

DATE: Easter'96
System Boot   : Tuesday 2 April 1996 00:01am
System Shutdown : Saturday 6 April 1996 11:59am

PRICE: More than 100 hours of party for maximum 200 NOK!
(About US$ 30)
As usual, girls and non-Europeans are let in for *FREE*.
ET's also have free entrance but have to provide their own phones.
Prices MIGHT change for the lower, but no promises yet.

NETWORK: 1500++ Ethernet connections with high speed internal and Internet party network from day 0 at NO EXTRA CHARGE!!
98% COAX connections, bring your HUB's for TP-connections.

You just need a PC with an Ethernet-card, or buy one from us for 250 NOK (US$ 35) (16bits NE2000 cards for ISA-bus only).
This is non-profit way for us get YOU onto the network if you don't already have a Ethernet card. You get to keep the card after the party. No rentals or credit plans available.
Major body parts acceptable as a shortterm deposit.

POWER: Seperate poweroutlet per person, 20 persons per breaker switch.
3000 Amps available instantly, and our special TECH task force will be monitoring the powergrid at all hours.
The hall itself is providing this as a courtesy service, so it's not us spending the week putting the power up. It's in place the week BEFORE the party.

COMPOS: Demo, intro, music, gfx and wild competitions will be held, plus a few surprises... See separate paragraph for more info.

VIDEO: Hot new movies and all the old goodies will be shown at regular intervals, 24 hours a day, all week.
A special auditorium with 200 quality seats and superb audiovisual equipment provides the quality experience for all of you moviebuffs.
If it's good enough for Olympic hot-shots it's certainly good enough for you.

SLEEPING: Special arrangements with the local fire department allow

sleeping inside the hall. (No more sleeping outside in a
tent, we're computer freaks and not Grizzly Adam's fans.)

-------- transport ------------------------------------------------------

How to get there:

From Oslo:
- Drive E6 north (towards Trondheim) from Oslo for about 75 minutes, and
  follow the signs to "Vikingskipet Olympic Arena".
  If you miss it, make your driver wear larger glasses!
  If you miss it twice, make your driver wear dark sunglasses and white
  cane.

- Trains for Hamar depart from Oslo Central station every hour, the
  hall is located about 500 meters from the station.

- Bus transports will be scheduled, contact us for booking information.

- If you arrive by plane or boat in Norway, follow the above
  directions from Oslo or call us for further instructions.

From Trondheim or northern Norway:
- Drive E6 South (towards Oslo) and follow the signs again.

From Sweden or Finland:
- Drive until you hit E6 in Norway and turn either South or North
  depending on your location. Ask the nearest gas station.

As several hundred thousand people made it during the Olympics, and
nearly every person in Norway know where Hamar/Vikingskipet is, ASK!!!

Map will be available at a later date at WEB-site and in the written
invitation.

-------- Rules ----------------------------------------------------------

General rules that really should be obvious...

- Political, racist and religious activities will not be tolerated.
  The organizers reserve EXCLUSIVE right to determine what will be
  tolerated or not.

- Commercial activity or trading will not be allowed without prior
written permission from the organizers. (And a proper bribe of
course).
```

– Alcohol, drugs, firearms, projectile weapons, fireworks and nuclear
devices not intended for transportation are not allowed inside or
immediately outside the hall.

– We will not be held responsible for damaged or stolen property.

– Software piracy, hacking and illegal swapping will not be tolerated.
  Hacking the network is probably fun, but so is living the rest of
  your life without any testicles!!
  Remember!! Norwegians eat Rudolf's testicles for X-mas.

-------- Technical Stuff ---

– All electrical equipment must be properly put together following
  normal electrical regulations. Equipment not following this easy rule
  will not be allowed to hook up to the power grid.

– Microwave ovens, grills, toasters, refridgerators, electric chairs and
  other equipment that may cause electrical noise, power surges or
  electrocutive experiences will not be allowed inside the party hall.

– The party network will be based upon a 100 Mbit backbone. However, we
  will only be able to connect you to it via standard 10 Mbit COAX BNC
  connections at each table.
  IPX/SPX and IP protocols are the only protocols supported.

– ANY AND ALL network connections are to be made by TECHNET crew personell.
  The only thing you should do yourself is installling your own
  networkclient at your workstation. The Tech Crew will be provide
  assistance for those who need it to get you onto he network.

– Tampering with the network or power system will not be accepted!!
  Time and technical restrictions makes this a FRIENDSHIP rule.

-------- Alternative Easter --

Why not combine THE GATHERING with your normal Easter holiday?

About two hours of driving from Hamar, you find HAFJELL and KVITFJELL,
the arenas that hosted the alpine diciplines during the 1994 Winter
Olympics.
These are two of Scandinavia's most modern alpine centers today, well
suited for those family members who don't want to spend the entire week
indoor.

As well is Hamar a tourist site in itself. Olympics arenas and scenic
nature is just part of what makes Hamar interesting.

For those of you above 18, Hamar also provides a semi-interesting
nightlife. Remember that drunken bastards will not be let into the hall,
so behave yourself a bit.

-------- KANDU ---

KANDU (Kreativ Aktiv Norsk Data Ungdom) would translate into
"Creative Active Norwegian Computer Youth" was formed by Crusaders,
Cryptoburners, ATC and a few other groups in order to show people

outside the scene what we are capable of, a vital step in the process of
getting economical support for a project of this magnitude.

You may join KANDU through our web site, or by contacting us directly.

-------- Last but not least --

Remember, this is only a preliminary invitation file, and all
information stated above may be subject to change without notice. If you
have any suggestions or comments, please feel free to contact us as
stated elsewhere in this document.

No warranties are expressed or implied...or something like that.
