1.2 x-files - introduction

introduction

ok, my holidays are gone and i am back in germany. the trip to usa was very cool, but every good thing has an end... :-)

this will be the last amiga-guide issue. from the next issue on, the x-files will be a fully coded mag, with everything like graphical surface, modules and a search function...

for the coded x-files issues we need title-pictures, x-files-logos, ethic-logos (all aga or ecs, hires or hires-interlace, maximum size about 250kb) and some modules (maximum size about 200kb). so if you want to help us to make the x-files looking and sounding better, please do whatever you can... :)

and never forget: read, spread and support the x-files !!!! :-)

ok, thanx for now and see ya soon...

1.6 wanted

for the x-files i'm searching for up-to-date news:

with news i mean:

- memberlists (with username and function (and country if possible))
- newcommers (with old group if possible)
- "go-away'ers" (with reason like new group, kicked, left scene)
- general news about groups (like next releases, planed projects
planned parties, and so on...)
- information about parties (like invitations, results, reports,
visitor-lists)
- news about everything that's worth interesting

i can not check every news i get. so it is possible, that an error appears in the x-files. don't blame me for this, but please mail me the error with the correction and i will fix it immediately.

i am also searching for ascii-logos for x-files.

so, if you have news, corrections, comments, suggestions, ideas or anything else worth mentioning, then contact me at:

contact-addresses

1.7 future plans
