1.1 Loader : IFF-16SV

IFF-16SV

Description :

loads IFF-16SV Samples (16bit)

incl. Loops

Multi-Channelsamples

Compressed Data

Again I got the info on this format from Richard Körbners freeware SoundBox program. It's basically the 8SVX format, except that it carries the '16SV' mark and saves 16bit sample data to the 'BODY' chunk.
