## 1.2 Introduction

Introduction

Welcome to AMIL (Amiga Main Internet List).

This is (or at least tries to be) a full (???) listing of every (???) person - company - dealer - group - BBS - mailing list - newsgroup - zine related to the Amiga. Extra goodies include all Aminet sites and a lot of WWW Resources.

Let's try to make it clearer. This guide contains (1) the following :

1. People/Persons.  
That includes :
  - Programmers/Coders

- Hardware/Software Designers
- Music/Gfx Artists
- Managers
- Producers

Additional information includes :

- Company working for/Group belonging to
- E-Mail address
- WWW address
- IRC Nickname/Channel
- Fidonet address
- Notes about the person
- Projects created

## 2. Companies.

That includes :

- Hardware/Software Distribution Companies
- Hardware/Software Development Companies
- Software Houses

Additional information includes :

- E-Mail address
- FTP address
- WWW address
- Fidonet address
- Activities
- Products that are developed/distributed

## 3. Dealers/Vendors.

That includes :

- Hardware/Software Dealers
- Hardware/Software Vendors

Additional information includes :

- E-Mail address
- FTP address
- WWW address
- Fidonet address
- Products that are distributed

## 4. Groups/Teams.

That includes :

- Programming Groups/Teams
- Demo Groups/Teams
- Gfx/Sfx Studios

Additional information includes :

- E-Mail address
- FTP address
- WWW address
- Fidonet address
- Activities
- Projects created

## 5. BBS.

That includes all kinds of BBS dealing with Amiga.

Additional information includes :

- Sysop Name
  - E-Mail address
  - FTP address
  - Telnet address
-

- Fidonet address
- Amiganet address
- Notes about the BBS
- Phone Lines (+ modem type)

#### 6. Mailing Lists.

That includes all kinds of Mailing Lists/List Servers dealing with Amiga.

Additional information includes :

- E-Mail address
- (Un)Subscribe address
- (Un)Subscribe commands
- Mail address
- FTP address
- Notes about the mailing list

#### 7. Newsgroups.

That includes all Usenet Newsgroups dealing with Amiga.

Additional information includes :

- Notes about the newsgroup
- Moderator name/e-mail, if the newsgroup is moderated.

#### 8. Zines.

That includes Zines in electronic and "printed" form.

Additional information includes :

- E-Mail address
- WWW address
- Editor name/e-mail

#### 9. Aminet Sites.

That includes all sites that mirror the whole (or part of) Aminet.

Additional information includes :

- Country
- Site name
- IP address
- Aminet path
- Number of files mirrored

#### 10. WWW Resources.

(1) : Numbers 1 - 8 are under improvement (See  
Comments  
) . Number 9

is updated through pub/aminet/README. Number 10 is still under development. I already have (stored in a database) a list of over 15 Dealers and 25 WWW resources but that has to be first converted in a "readable" format. Ideas are welcome.

#### NOTES

- I will try to upload a new version to Aminet every month or so, as long as this list is maintained by me.
  - Watch the next version (Dec '95/Jan '96) because it's gonna be the FINAL one (as long as the design is concerned). Sometime in the new
-

year, a new AMIL will appear, probably in a database format (with MUI being the first choice in terms of GUI design). Until then only updates of AMIL contents will be released.

- Most probably the next version of AMIL will be an official project of IAS. If you haven't subscribed to IAS yet, SUBSCRIBE NOW. The AMIGA really needs you !!!

ATTENTION

-----

THIS VERSION IS HIGHLY EXPERIMENTAL AND INCOMPLETE

Tassos Hadjithomaoglou

## 1.3 Purpose

Purpose

General purpose of this list is to provide the Amiga Community with information about every possible "PROJECT" (2) associated with this wonderful computer. That way, you (Amiga users) can contact the "PROJECT" immediately and :

- request misc information
- send thanks/(b|f)lames (i hope not the second)
- send corrections/additions/suggestions/improvements/comments
- get informed about various products
- exchange opinions

and many more i can't even think of.

(2) : The word "PROJECT" used here, refers to numbers 1 - 10 mentioned in introduction, and DOESN'T try to "underestimate" anyone of you. Therefore it has nothing to do with the field "Projects :" used in the actual list.

- HELP THE AMIGA COMMUNITY GROW -

## 1.4 Copyright-Distribution-Disclaimer

Copyright

---

This document is Copyright © 1995 Tassos Hadjithomaoglou.  
All rights reserved.  
Some of the mentioned names or products may be copyrighted by  
companies or trademarks of companies.

#### Distribution

This document may be freely distributed, provided that it is distributed  
in its original unmodified form. If you modify this document, you are  
not allowed to distribute it. If you really want to modify this document  
please contact the author first.

#### Disclaimer

The author of this document :

- is not responsible for any damage caused by the use of this document.  
It's all user's responsibility.
- is not responsible and makes no claims about the validity and  
correctness of information included in this document.
- does not necessarily endorse any of the information included in this  
document.

This document is provided for informational purposes only.

## 1.5 Comments

#### Comments

This list cannot be expanded without the help of users/readers like you.  
So, if you have any additional information/corrections/suggestions,  
PLEASE send them to  
me  
.

Keep this in mind: before posting use the supplied  
AMIL\_Search.rexx  
script to check if the information you are about to post is ←  
already  
included in the current version of AMIL (maybe in a wrong section ?).  
That way my job can be made a lot easier.

All

contributors  
will be credited with their email addresses, unless  
denied by them.

Information most needed is about :

- WWW addresses of Persons & Companies
  - Companies & Groups
  - BBS (E-Mail, Telnet addresses)
-

- Zines
- widely known programmers/artists

Also, a lot of people suggested the conversion of this guide to a different format. Something like a database with search, link, query, etc. options. I'm still trying to figure out the right way. Anyway, links will probably be included in the next version. Please send me your ideas.

#### NOTES

- All submitted information can not be checked (fully) for it's validity and correctness.
- Contributors are requested (well, i can't force them) to submit information using the formats used in this document. That way i can more easily/frequently update this list.
- Any grammatical/spelling corrections in this list are also welcome (yu si, mai speling isent veri goud). :-))))))

## 1.6 Credits

#### Credits

AMIL.guide : main idea, written/designed by Tassos Hadjithomaoglou  
 AMIL\_Search.rexx : written by Tassos Hadjithomaoglou

A lot of WWW info taken from The Amiga Web Directory  
 (Kevin, I hope you don't mind...:-))

A lot of BBS info taken from Amiga Report  
 (Jason, I hope you don't mind too...:-))

Aminet Sites info taken from pub/aminet/README  
 (Urban, I hope you don't mind toooo...:-))

NOTE:

143.233.170.201 is based on a Pentium running Windows NT (both suck !!!), which is networked with the main university server using an Ethernet card. It is an experimental server set up by me and a friend of mine and therefore you might encounter problems when accessing it. If so, please report them to my email address immediately. Also take note that this server is not operating 24hrs a day due to authority problems. I hope that's fixed by the end of the year.

143.233.170.201 IS OUT OF ORDER FOR THE PRESENT !!!

## 1.8 History

### History

R123 (10-May-1995) : Written just for personal use.

## 1.38 Companies

### Companies

#### ACID software

E-Mail : acid@iconz.co.nz  
Activities : Software Development & Distribution  
Products : BlitzBasic, Blitz3D, Gloom, Blitz-Jaguar

#### ALLDATA

E-Mail : ronald@noblehouse.xs4all.nl (Ronald van Eijck)  
Activities : Software Development  
Hardware/Software Distribution  
Products : ALLert information system,  
Custom vidwall control software,  
Custom gameshow control software,  
(f.i. 'Postcodebingo', 'Quinto', 'Love is..')

#### Almathera Systems Limited

E-Mail : almathera@cix.compulink.co.uk  
jralph@cix.compulink.co.uk (Jolyon Ralph)  
Activities : Software Development & Distribution  
Products : Photogenics, Video Creator CD

#### Amiga Library Services (North American Distribution)

E-Mail : info@amigalib.com  
Activities : Software Distribution  
Products : Light Works CD, Fresh Fonts CD-ROM

#### Amiga Technologies (AT)

E-Mail : peterk@mail.Amiga.de (Dr. P. Kittel)  
WWW : <http://www.Amiga.de>  
Activities : Rebirth of Amiga  
Products : Amiga Computers, a new Amiga (?)

#### Amiga Video Solutions, Inc.

WWW : <http://www.winternet.com/~avs/>  
Activities : Video Hardware/Software Development  
Products : ?

#### Ami-Trix Development

E-Mail : sales@amitrix.com  
decurrie@freenet.edmonton.ab.ca (Dale Currie)  
WWW : <http://nyquist.ee.ualberta.ca/~ewaniu/amitrix.html>  
Activities : Software/Hardware Development & Distribution  
North American Distributor for AmigaLink Network Package

---

South American Distributor for AmigaLink Network Package  
UK Distributor for the AmigaLink Networking Package  
VAR bundling IAM's Envoy2.0 with AmigaLink Package  
Canadian Dealer for Quantum Hard Drives  
OEM of various Amiga expansion hardware

Products : CD-RAM, SCSI-TV (CDTV SCSI hard drive controller),  
SCSI-TV570 (A570 SCSI hard drive controller),  
Amiga-Link (peer to peer networking via the floppy port)

Asimware Innovations Inc.  
E-Mail : info@asimware.com  
reeves@cujo.icom.ca (Paul Reeve)  
FTP : asimware.com  
Activities : Software Development & Distribution  
Products : ASIM CDFS (Amiga CD filesystem),  
Master ISO (CD-ROM Writing Software)  
PhotoCD Manager CD32  
Texture Heaven CD 1 & 2

AugmenTek  
E-Mail : augmentek@acm.org  
WWW : <http://www.halcyon.com/sbr/>  
Activities : Software/Hardware Development & Distribution  
Products : MultiVol, Rexinda, REXXVar, TorqueWare

Barnie Productions  
E-Mail : barnie@xs4all.nl  
Activities : Software Development & Distribution  
Products : IPR (Image Processing Revelations)

Bevelstone Production  
WWW : <http://www.login.dknet.dk/~bvlstone/>  
Activities : Game Development  
Products : Fields of Battle

Black Belt Systems, Inc.  
E-Mail : info@blackbelt.com (Additional Information)  
support@blackbelt.com (Technical Support)  
market@blackbelt.com (Marketing)  
sales@blackbelt.com (Sales)  
FTP : [ftp.blackbelt.com/corporate/blackbelt/demos](ftp://ftp.blackbelt.com/corporate/blackbelt/demos) (Software Demos)  
WWW : [http://www.blackbelt.com/blackbelt/bx\\_top.html](http://www.blackbelt.com/blackbelt/bx_top.html)  
Activities : Software Development & Distribution  
Products : Imagemaster R/t, Board Master

Blittersoft (England)  
E-Mail : plesurf@cix.compulink.co.uk  
100523.2224@compuserve.com  
Activities : Software Development  
Software Distribution for Utilities Unlimited  
Hardware Distribution for Village Tronic  
Products : Liana

Bug Free Development  
E-Mail : 71171.3015@compuserve.com  
Activities : Software Development  
Products : CheckItOut, Stocks

---

## C-Born Software Systems (Australia)

E-Mail : dave@cborn.pth.alcoa.com (David Varley)  
Activities : Software Development  
Products : AmigaFax

## Cloanto (Italy)

E-Mail : 100145.15@compuserve.com  
Activities : Software Development  
Products : Personal Paint

## Consultron

E-Mail : cstron@m-net.arbornet.org  
          consultron@consultron.plymouth.mi.us  
Activities : Software Development & Distribution  
Products : CrossDOS, CrossMAC

## Custom Services

E-Mail : Tony-Preston@cup.portal.com (Tony Preston)  
Activities : Software Development & Distribution  
Products : STU (The Amiga System Test Utility)

## Cygnus Software

E-Mail : CygnusSoft@cup.portal.com  
Activities : Software Development  
Products : CygnusEditor, Mand2000

## Data Compression Technologies

E-Mail : jonathan.forbes@canrem.com (Jonathan Forbes)  
Activities : Software Development  
Products : LZX

## Didkovsky/NerveWare

E-Mail : 72250.3313@compuserve.com  
Activities : Software Development  
Products : Deluxe MIDI Converter

## Digita International

E-Mail : digita@cix.compulink.co.uk  
          soft-logik@cup.portal.com (Soft-Logik)  
Activities : Software Development  
Projects : Wordworth, Digita Organizer, DataStore

## DKB

E-Mail : 71333.453@compuserve.com (Dean Brown)  
Activities : Hardware Development & Distribution  
Products : MultiStart, MegaChip, InsiderII, Piccolo, 1202, 2632,  
          3128, BattDisk, KwikStartII

## Eclipse Software (NZ)

E-Mail : dave@eclipsnz.manaewatu.gen.nz (Dave Dustin)  
Activities : Software Development and Distribution  
          Desktop Publishing  
          Contract programming/support  
Products : ?

## Elverson Puzzle Company

E-Mail : equack@bix.com  
Activities : Software/Hardware Development  
Products : Elversound (PCMCIA audio Card)

#### Endicore Technologies Inc.

E-Mail : info@endicor.com  
WWW : <http://www.crl.com/~endicor/>  
Activities : Software Distribution  
Products : Epson Stylus Color Driver, Gage CS220 Driver,  
ASDG GPIB Driver, OzMetro BBS

#### Eureka

E-Mail : hoen@iaehv.iaehv.nl (Frank Hoen)  
Activities : Software/Hardware Distribution  
Products : Communicator I & II, Afterburner 50mhz 68030 turbo,  
Photolite PhotoCD, Helm

#### Expansion Systems

WWW : <http://jack.sns.com/~expsys/>  
Activities : Hardware Development & Distribution  
Products : HighFlyer, DataFlyer

#### Expert Services

E-Mail : ecodev@cup.portal.com  
scottbe@bix.com  
scottbe@iac.net  
Activities : Software/Hardware Distribution  
Products : Picasso II, OS 3.1 kits, Pablo

#### Eyetech Group Ltd

E-Mail : eyetech@cix.compulink.co.uk  
Activities : Hardware Development & Distribution  
Products : Fitting kit for A1200 & A4000

#### Fourth Level Developments

E-Mail : pfssales@flevel.demon.co.uk (PFS Sales)  
afssales@flevel.demon.co.uk (AFS Sales)  
sales@flevel.demon.co.uk  
support@flevel.demon.co.uk  
Activities : Software/Hardware Development  
Products : PFS (Professional File System), Ami-FileSafe,  
Mo-Miga SCSI 1.3GB Magneto-Optical, Dice

#### Fred Fish (USA)

E-Mail : fnf@amigalib.com  
Activities : Software Distribution  
Products : Fred Fish Disks, Meeting Pearls CD, Aminet CDs,  
Light-ROM CDs, mkisofs

#### Geodesic Design

E-Mail : geodesic@neonate.atl.ga.us  
Activities : Software Development  
Products : MindLight

#### GPSSoftware

E-Mail : zzgperry@mailbox.uq.oz.au (Dr Greg Perry)  
Fidonet : 3:640/304 (Dr Greg Perry)

---

Activities : Software Distribution  
Products : Directory Opus, GPFax, General Ledgers, GPterm-Amiga,  
GPTouch, Daudio

#### Gramma Software & Systems

WWW : <http://www.nwlink.com/~stockton/rls-gramma.html>  
Activities : Software Development  
Products : NagPlus, Cal, Fred, FLO

#### Graphic Detail

E-Mail : michael@iglou.com  
Activities : Software Distribution  
Products : LIGHT-ROM CD 1 & 2

#### HarmonySoft

E-Mail : harmony@ccsg.tau.ac.il  
Activities : Software Development & Distribution  
Products : Rashumon

#### Heifner Communications Inc.

E-Mail : Pegger@express-way.com  
Activities : Software Development  
Products : Pegger

#### HiSoft/Microdeal

E-Mail : hisoft@cix.compulink.co.uk  
Activities : Software/Hardware Development & Distribution  
Products : HiSoft Devpac, HighSpeed Pascal, HiSoft Basic  
Squirrel (SCSI2 PCMCIA interface),  
The HiSoft Language CD-ROM,  
AURA (12/16Bit Sound Sampler)  
Twist 2 (Database), GameSmith Development System,  
MegaloSound, ProMidi Interface, Termite, Maxon Magic,  
Upper Disk Tools, VistaLite (+ MakePath/TerraForm)

#### Intangible Assets Manufacturing (IAM)

E-Mail : info@iam.com  
sales@iam.com (Sales)  
dale@iam.com (Dale L. Larson)  
envoy-help@iam.com (Envoy help)  
WWW : <http://www.iam.com/>  
Activities : Networking and Telecommunications  
Software/Hardware Development & Distribution  
Products : Amiga Envoy, DiskSalv 3.0, Megaball4

#### Iomega

WWW : <http://www.iomega.com/prod.htm>  
Activities : Hardware Development  
Products : Zip Drive

#### Joosen Software Development

E-Mail : cjoosen@xs4all.nl  
Activities : Software Development  
Products : Fed-CASE package

#### Legendary Design Technologies

E-Mail : legend@io.org (Syd L. Bolton)

## 1.92 Explanations

### Explanations

#### People/Persons

- The list is sorted alphabetically firstly by Country code (ISO 3166) and secondly by Person's lastname.

That ofcourse doesn't mean that a person with an address like xxx.org or xxx.com or xxx.net lives to United States.

Any corrections referring to this one are welcome.

- Everything that comes after a person's name and is enclosed in (), "", '' ussually refers to person's code/nick-name.

- The meaning of fields is :

Company : This is the Company which the person works for, or the Group where he/she belongs to.

E-Mail : This is the E-Mail address you should use if you want to

contact the person for any reason.

WWW : This is the WWW address of the person. Point any WWW browser to this address in order to access his/her pages.

IRC : This is the nickname used by this person on IRC. Also the channel (preceded by the symbol #) where he/her can be found on, is included.

Fidonet : This is the Fidonet address of the person.

Notes : These are special notes about the person. Possible entries include sysops, authors of standards, producers, gfx/sfx artists, etc.

Projects : These are the projects created by the person. If you want to refer to a specific project (which is followed by an address enclosed in <>) then you should use that address instead of the general one.

### Companies

- The list is sorted alphabetically by Company name.

- The meaning of fields is :

E-Mail : This is the E-Mail address you should use if you want to contact the Company for any reason. Note that usually this address refers to the president of the Company (the name of the person the address is referring to is enclosed in ()).

FTP : This is the FTP address of the Company. Use this address in order to access the Company's FTP site.

WWW : This is the WWW address of the Company. Point any WWW browser to this address in order to access the Company's pages.

Fidonet : This is the Fidonet address of the Company. Note that usually this address refers to the president of the Company (the name of the person the address is referring to is enclosed in ()).

Activities : This is what the Company is dealing with. Also a list of companies which this company is a distributor for, is included.

Products : These are the products developed and distributed by the Company. If the company is a distributor for another company then check the other's company entry in order to find the complete range of distributed products.

### Dealers/Vendors

- The list is sorted alphabetically by Dealer/Vendor name.

The next version will be sorted by Country name.

- The meaning of fields is :

E-Mail : This is the E-Mail address you should use if you want to contact the Dealer/Vendor for any reason. Note that usually this address refers to the president (the name of the person the address is referring to is enclosed in ()).

FTP : This is the FTP address of the Dealer/Vendor. Use this

---

- address in order to access the Dealer/Vendor's FTP site.
- WWW : This is the WWW address of the Dealer/Vendor. Point any WWW browser to this address in order to access the Dealer/Vendor's pages.
- Fidonet : This is the Fidonet address of the Dealer/Vendor. Note that usually this address refers to the president (the name of the person the address is referring to, is enclosed in ()).
- Products : These are the products distributed by the Dealer/Vendor. If some of them are "special", their names are included. Otherwise the phrase "Complete range of ..." is included.

#### Groups/Teams

- The list is sorted alphabetically by Group/Team name.

- The meaning of fields is :

- E-Mail : This is the E-Mail address you should use if you want to contact the Group/Team for any reason. Note that usually this address refers to a member of the Group/Team (the name of the person the address is referring to is enclosed in ()).
- FTP : This is the FTP address of the Group/Team. Use this address in order to access the group/team's FTP site.
- WWW : This is the WWW address of the Group/Team. Point any WWW browser to this address in order to access the group/team's pages.
- Fidonet : This is the Fidonet address of the Group/Team. Note that usually this address refers to a member of the Group/Team (the name of the person the address is referring to is enclosed in ()).
- Activities : This is what the Group/Team is dealing with.
- Projects : These are the projects created/developed by the Group/Team.

#### BBS

- The list is sorted alphabetically firstly by Continent/Country/State name and secondly by BBS name.

- The meaning of fields is :

- Sysop : This is the Sysop's name. What follows enclosed in <> is his/her e-mail address.
- E-Mail : This is the E-Mail address you should use if you want to contact the BBS for any reason. Note that usually this address is the same with the sysop's e-mail address if a general one doesn't exist.
- FTP : This is the FTP address of the BBS (rarely used).
- Telnet : Use this address to telnet into the BBS. If a port number is specified too, use that one too.
- Fidonet : This is the Fidonet address of the BBS. Note that usually this address is the same with the sysop's Fidonet address if a general one doesn't exist.

Amiganet : This is the Amiganet address of the BBS. Note that usually this address is the same with the sysop's Amiganet address if a general one doesn't exist.

Notes : These are notes about the "interests" of the BBS.

Lines : These are the phone numbers you should use to contact the BBS. Usually the first part of the number is enclosed in () and refers to the country code. What follows after the phone number (and is also enclosed in ()) is the modem type and speed used by the BBS.

#### Mailing Lists

- The list is sorted alphabetically by ML (Mailing List) name.
- The meaning of fields is :

E-Mail : This is the address you should use to get various info regarding the ML or if you have any problems with the ML. What follows, enclosed in (), is the name of the person (usually the maintainer) the address is referring to.

SubscribeAd : Send email to this address in order to (un)subscribe to/from the ML.

SubscribeCm : Send these commands to the above address in order to (un)subscribe. If this field is empty, then try to send a HELP command.

NOTE :

EmailAddress = your email address  
(ex.: chatasos@teia.ariadne-t.gr)

FirstName = your first name  
(ex.: Tassos)

LastName = your last name  
(ex.: Hadjithomaoglou)

[] = optional field

Mail : Use this address if you want to send something to the ML, after you have subscribed. If this field is empty, then most probably you can use the Subscribe address or the address returned to you by the ML after the subscription.

FTP : This is the FTP address you should use if you want to access the ML's archives.

Notes : These are notes about the purpose of the ML.

#### Newsgroups

- The list is sorted alphabetically by Newsgroup name.
- The meaning of fields is :

Notes : These are notes about the purpose/interests of the newsgroup.

Moderator : This is the moderator's name. If this field exists, then you should contact him/her (use the e-mail address enclosed in <>) in order to make a posting.

---

## Zines

- The list is sorted alphabetically by Zine name.
- The meaning of fields is :

E-Mail : This is the E-Mail address you should use if you want to contact the zine for any reason. This is usually the same with the editor's e-mail address if a general one doesn't exist.

WWW : This is the WWW address of the zine. Point any WWW browser to this address in order to access the zines's pages.

Editor : This is the editor's name. Use the e-mail address enclosed in <> if you want to refer specifically to him/her.

## 1.93 AMIL\_Search

### AMIL\_Search

This is just an experimental search function. It's written in ARexx and it's quite slow (try reading the whole file line by line, while searching each line and writing to a new file at the same time).

Please pay attention to these :

- o You don't need anymore to make an AMIL: assign, so AMIL\_Search.rexx can load AMIL:AMIL.guide and search it. AMIL\_Search.rexx searches first into the current directory and if AMIL.guide is not found there, then it searches into AMIL:.

Anyway if you insist to make the assign, here it is how :

Assign AMIL: <insert directory of AMIL.guide here>

ex. : Assign AMIL: DH2:Docs/AMIL

- o Either place AMIL\_Search.rexx into the Rexx: directory or better leave it into the current (or AMIL:) directory.
- o AMIL\_Search.rexx creates a file (called AMIL\_Search.guide) into volume T:, so having T: assigned as RAM:T is a good idea.
- o The following files must exist and be in your path :
  - rx (found in SYS:rexxc)
  - RexxMast (found in SYS:System)
  - Run (found in C:, resident in AmigaOS >= 2.0)
- o The file RexxMast (SYS:System/RexxMast) is executed before AMIL\_Search.rexx (rx calls it), so you don't have to run it manually.
- o AMIL\_Search.rexx can be run from:

- CLI

The word to search for can be supplied either as an argument :

ex.: AMIL\_Search.rexx thomas  
will find and display all lines containing "thomas"

or leave the program itself ask for one :

ex.: AMIL\_Search.rexx  
will display "Please input word to search for :"  
and you can type in the word you want to search for.

- WorkBench

A CON: window will be opened and the message  
"Please input word to search for :" will appear.  
Now just type in the word you want to search for.

- o You can press "Return" before entering anything else if you want to abandon the search.
- o The search can be aborted anytime by pressing Control+C. Note that the file T:AMIL\_Search.guide created till then will be deleted.
- o The search being done is case insensitive, so "thomas" is the same as "Thomas" which is the same as "ThOmAs".
- o In order to view AMIL\_Search.guide you can use :
  - SYS:Utilities/MultiView (default)
  - SYS:Utilities/AmigaGuide
  - an AmigaGuide database viewer of your choice. All you have to do is change the line :  
Viewer = 'SYS:Utilities/MultiView'  
to the right one for your viewer. Please use the full path otherwise AMIL\_Search.rexx won't be able to find it.
- o The file which is created (T:AMIL\_Search.guide) is a normal AmigaGuide database containing links to the lines of the nodes where the word was found and the actual lines themselves. So clicking on a button/link will transfer you to the appropriate node and line of AMIL.guide. Then you can press the "Retrace" button and move back to AMIL\_Search.guide, press another button/link and so on.
- o The Run command is used with Multiview (or AmigaGuide) so you can continue your work while the AMIL\_Search.guide is being displayed. The drawback is that when you finish, you'll have to delete T:AMIL\_Search.guide manually.

NOTE : I'm still waiting for an AmigaGuide (+.library) version with a search function included (Anyone/Escom/AT hearing me?).

---

## 1.94 Formats

### Formats

These are the writing formats you should follow to allow me do the updating easier. For extra information look at

Explanations

Anyway, thanks in advance.

### Persons/People

#### Person Name

Company : Company working for/Group belonging to  
E-Mail : E-Mail address  
WWW : WWW address  
IRC : IRC nickname/channel usually on  
Fidonet : Fidonet address  
Notes : Special notes (sysop, author of standard, artist, etc.)  
Projects : Projects created

### Companies

#### Company Name

E-Mail : E-Mail address (+ name)  
FTP : FTP address  
WWW : WWW address  
Fidonet : Fidonet address (+ name)  
Activities : Development/Distribution for which Company-Product  
Products : Products distributed/developed

### Dealers/Vendors

#### Dealer Name

E-Mail : E-Mail address (+ name)  
FTP : FTP address  
WWW : WWW address  
Fidonet : Fidonet address (+ name)  
Products : Products distributed (specify name if something special)

### Groups/Teams

#### Group Name

E-Mail : E-Mail address of Group/Team (+ name)  
FTP : FTP address  
WWW : WWW address  
Fidonet : Fidonet address (+ name)  
Activities : Development/Distribution  
Projects : Projects created/developed

### BBS

---

## BBS Name

Sysop : Name of Sysop <E-Mail address>  
E-Mail : E-Mail address of BBS  
FTP : FTP address  
Telnet : Telnet address  
Fidonet : Fidonet address  
Amiganet : Amiganet address  
Notes : Special notes  
Lines : Phone Lines (+ modem type)

## Mailing Lists

## Mailing List Name

E-Mail : E-Mail address of maintainer (+ name)  
SubscribeAd : Subscribe address  
SubscribeCm : Subscribe commands  
Mail : Mail address  
FTP : FTP address  
Notes : Special notes about the purpose of the mailing list

## Newsgroups

## Newsgroup Name

Notes : Special notes about the purpose of the newsgroup  
Moderator : Name of Moderator <E-Mail address>

## Zines

## Zine Name

E-Mail : E-Mail address of zine (+ name)  
WWW : WWW address  
Editor : Name of Editor <E-Mail address>

NOTE : Please include name of Country/State/City where necessary.

## 1.95 Other Nets -> Internet

xxxNet-Internet Gateways

Fidonet -> Internet

NOTE : If you need more nets just mail me.

## 1.96 Fido-InterNet gateways

Fido-InterNet gateways

USA and other

```
Fidonet : zone:net/node.point (firstname lastname)
Internet : firstname.lastname@pXX.fXXX.nXXXX.zX.fidonet.org
```

ex.

```
Fidonet : 2:292/603.10 (Nico Francois)
Internet : Nico.Francois@p10.f603.n292.z2.fidonet.org
```

Australia

```
Fidonet : zone:net/node.point (firstname lastname)
Internet : firstname.lastname@pXX.fXXX.nXXXX.zX.fido.zeta.org.au
```

ex.

```
Fidonet : 3:622/423.2 (steve banham)
Internet : steve.banham@p2.f423.n622.z3.fido.zeta.org.au
```

Germany

```
Fidonet : zone:net/node.point (firstname_lastname)
Internet : firstname_lastname@pXX.fXXX.nXXXX.zX.fido.sub.org
```

ex.

```
Fidonet : 2:2457/435.10 (Andreas_Kleinert)
Internet : Andreas_Kleinert@p10.f435.n2457.z2.fido.sub.org
```

Where : p=point (optional)  
f=node  
n=net  
z=zone  
X=number 0-9

NOTE1 : When you come into a name containing 3 words, most of the times that means that the first word is the firstname and the third (last) word is the lastname.

NOTE2 : The format used is the first example (USA and other) is the general one and can be used everywhere. Try it if nothing else works.
