1.2 DLManager About

```
DLManager About

DLManager is for managing your distribution lists.  If you have a piece
of software that you have written and you have bunches of addresses
of people who have written to you then this script is just what you
need.

Well, what about the Alias feature in Thor you ask?  The Alias feature
```

in Thor will not do what DLManager will do. The user database will
not let you add more than one user of the same name – so – if you
have one person that is using 3 of your products then you will have
to add that person manually everytime you send out an update or
EMail about that certain product.

DLManager will let you create endless Distribution Lists.

I can be reached at the following addresses for/with
comments/bug reports etc...

    Internet:

       EMail: tbouchar@ptialaska.net
         WWW: http://www.ptialaska.net/~tbouchar
        News: alt.sys.amiga.thor Not Recommended!!

    Snail–Mail:

    Send money to:

       SnowyHill Christian Academy
       ATTN: Troy E. Bouchard
       737D Alyeska Ave.
       Kodiak, AK 99615

1.3   DLManager Disclaimer

DLManager Disclaimer

I have made every effort possible to make sure that DLManager will operate
as programmed, however, no warranty of any kind, expressed or implied,
is made by me. I will not be liable for any kind of damages direct or
indirect to your computer. In no event will I be liable for any damage,
loss of profits or savings resulting in the use of this program (script).

1.4   DLManager Registration

DLManager Registration

DLManager is Shareware, I would like you to at least send me an EMail
saying you are using it. If you do use it on a regular basis please
tell me so.

When you have EMailed me – telling me you are using it – you will be put
on a "list" (if you want) of 'unlimited' free updates to the script. You
will also get free support, and a clear conscience.

If you want to use this script in a business environment then please
send me an EMail and we can work out a 'Deal'. You Cannot Use
This Script In Any Business Venture Without Contacting The Author
Of This Product!

1.5   DLManager Install Guide

```
DLManager Installation

Installation is easy and painless!  Just copy DLManager.thor to
your [VOLUME]:Thor/rexx directory and run it!

When you run DLManager a window will pop up in about the center
of your screen.  You will see five gadgets with text:

GetSystem:  Will let you choose what system you want to use.

NewList:    Will create a new list and let you add your users.

WriteMSG:   Will let you choose what Distribution List you want to
      use, write your message with your configured editor
       and then write the event(s) for EMailing

DeleteList: Will let you delete the list of your choice.

Quit:     Quit out of the program.

You will also see some text at the top of the window:
    Current System: <your system>

Special Note:
     DLManager currently will write one message for EACH USER
     I know why it does this - I just can't figure out how to make it
     stop!
```

1.6   Acknowledgements

```
DLManager Would Like to Thank:

    The Thor team for developing the Amiga's best news and mail
    software for ANY computer platform.

    Bill Hawes for developing ARexx

    Matthew Dillon for creating DME.  THE editor for programmers
    and programming.

    Remco Van Hoof for all the encourgement when I first started out
    writing scripts.
```

1.7   DLManager Distribution

```
DLManager Distribution

DLManager.thor is freely distributable, but remains © Troy E. Bouchard.

It may not be included in any commercial distribution without prior
```

consent. Such consent is already given to include in on the Aminet CDs.

It may be included on magazine cover disks or CDs, notification must be
sent beforehand. A copy of the magazine and disk would be most welcome.

1.8 DLManager ToDo's

DLManager ToDo's

Give me some idea's!

    1. Figure out how to get DLManager to write one message
  for multiple users.

    2. Add a 'add user' feature.

    3. Add a 'delete user' feature.

1.9 DLManager History

DLManager History

1.0 (23.12.96)
  First Release.
