<u>Website:</u>	www.bigbangmini.com

Overview:

Big Bang Mini is a fast paced shoot'em up that puts a new spin on classic arcade style gameplay, all wrapped around a fireworks theme. Your objective is to navigate your 'ship' through a brilliant array of lights, dodging intense streams of firework debris as it rains down on you. Defeat waves of challenging enemies by deploying fireworks and performing combo attacks.

Features:

- Create your own fireworks display using the stylus
- 9 different worlds with multiple stages each with unique art, sound, and design
- Every world contains a different set of rules including new abilities previously unavailable
- Collect the stars dropped by defeated enemies to move on to the next wave
- After each level, design the Final Bouquet – a one-of-a-kind masterpiece that will illuminate the sky
- Versus play adds to the chaos
- Online rankings lets players see where they stack up against the competition
- Additional gameplay modes and options provide tremendous depth
- Over 20 music tracks by “Yubaba, Smith & Fortune” – nominated for “Best Music” in 2007 for Nervous Brickdown at Festival du Jeu Video

About Arkedo Studio

Arkedo is a Paris-based studio comprised of three game developers (four when the weather is nice), focused on making arcade-style games for Nintendo DS. Founded in early 2006, the studio's award winning first DS title was well received by the public and the press. Arkedo's secret plan to rule the world includes quirky and witty games, and a good amount of patience. Learn more by visiting www.arkedo.com.
