Soak in the action in “SPRay”

Featuring the “Spirited Prince” called “Ray”

SPRay is an action-adventure game in which you play an eccentric Prince who must save his village from a banished evil Queen who’s returned to capture and enslave the villagers. After donning a magic crown which summons two liquid spraying spirits of the Prince’s personality, he sets out to defeat the evil Queen and her army of anti-matter soldiers. Use the “angelic” and “wicked” spirits to spray water, oil, goo, and other liquids on enemies and surfaces to help you solve puzzles and wipe out evil!

- Perform gravity-defying moves as you spray, stick, and slide your way through challenging puzzles
- Creatively fight enemies by blasting various liquids on them and finishing them with a flurry of sword slashes!
- Use the Wii Remote and Nunchuk to take hold of your “angelic” and “wicked” spirits
- Get together with friends to play crazy multiplayer games like “Paint It!” and “Sticky Chewing Gum”
