Licensing TIFFany II

257522_PixelRule.tiff ¬

TIFFany II checks for the presence of a TIFFany II license key **(T2.License)** in the application bundle when launching.   When TIFFany II is first launched, or if this file is not found, the following panel will appear allowing you to license the application.

T2.LicensePanel1.tiff ¬

895784_CheckMark.tiff ¬   TIFFany II will function in **Demo** mode if a valid key is not used.
829683_CheckMark.tiff ¬   TIFFany II may be licensed for multi-user support on a given network.

;¬Demo Mode
To install a demo license, type **"Demo"** into the **Key Code** field and hit Return twice or click the **"Demo"** button provided.   This will enable an unlimited number of users to access TIFFany II while in **Demo** mode.   Some features and modules are not supported while TIFFany II is running in **Demo** mode.

T2.LicensePanel2.tiff ¬

Some modules are not supported while TIFFany II is in **Demo** mode.

The following features are not supported as well:

969542_CheckMark.tiff ¬   Saving
600903_CheckMark.tiff ¬   Printing
339630_CheckMark.tiff ¬   Copy/Paste

Official Releases
To make the licensing of TIFFany II as simple as possible, simply drag and drop your TIFFany II License Key **(T2.License)** onto the license panel. TIFFany II will register itself and   display its information in the license panel.   Press return to complete the licensing of your software.
