BLaCKSMITH

Founded in 1992, BLaCKSMITH, Inc. is dedicated to providing software solutions to customers who wish to capitalize on the advantages of object-oriented software. BLaCKSMITH produces business productivity software for the NEXTSTEP operating environment, and is currently marketing its commercial product CHaRTSMITH. CHaRTSMITH is the presentation-quality charting and graphing solution for NEXTSTEP. Other object-oriented, commercial applications are currently under development at BLaCKSMITH, due for market release in 1995. Additionally, BLaCKSMITH provides consulting services for organizations seeking NEXTSTEP development expertise. With state-of-the-art design and implementation practices and years of management consulting experience, BLaCKSMITH delivers outstanding consulting services to information technology organizations.
