

**Note to Editors:**

At the request of the game developers, Nintendo has prioritized all images by file name. If you plan to publish only a select number of images per title, Nintendo requests that you choose screen shots by “Priority Number.”

Ex: *Console \_ Game Title \_ Priority Number \_ File Name \_ E3.jpg*

Please note: If multiple images have the same “Priority Number”, the numeric value in the “File Name” will indicate the order of precedence.
