### **Game description:**

Affordable Space Adventures is a 2D side scrolling spaceship simulator. You are using the GamePad as a “Heads Down Display” – spaceship cockpit, and you have to configure all the systems in order to fly around undetected on an alien planet. You can either play it alone, or fly as a crew of 2 or 3 players, requiring a lot of communication between the players.

### **Features**

- Suspenseful stealth puzzling: How do you configure and control the system so you don't get seen, heard or otherwise detected?
- Experience thrills, spookiness and beautiful areas of the world crafted and designed by Swedish indie game developer “Niffas”.
- Multiple difficulty levels ranging from family friendly to extremely complex.
- Play with your friends and control the ship together or take on the challenge alone.
- A game that truly utilizes the potential of the Wii U hardware.

### **History**

Affordable Space Adventures is collaboration between Nicklas "Niffas" Nygren (Knytt Underground, Nightsky) and KnapNok Games (Spin the Bottle: Bumpie's Party). We are merging Niffas' passion for making atmospheric exploration and mind-bending puzzles with KnapNok Games' dedication to work with weird new interfaces and an eye for what is happening in front of the TV.
