

## ***Guacamelee! Super Turbo Championship Edition (STCE) Wii U Fact Sheet***

### **Overview/Summary/Positioning:**

Guacamelee! STCE is a Metroid-vania style action-platformer set in a magical Mexican-inspired world. The game draws its inspiration from traditional Mexican culture and folklore.

Guacamelee! STCE builds upon the classic open-world Metroid-vania style of games, by adding a strong melee combat component, a new dimension switching mechanic, and cooperative same-screen multiplayer for the entire story.

### **Key Features:**

- Expanded Story: An expanded version of the game that also includes DLC content from the original
- New Game Areas: Players will ride boats through the *Canal de las Flores* to save a besieged fishing town, and avoid lava as they climb through the volcanic *Pico de Gallo*
- New Boss: Face off against *El Trio de la Muerte*, a three-headed skeleton that lives in the Volcano, helping the evil Carlos Calaca build his skeleton armies
- New Abilities: Maximize destruction with the powerful new *INTENSO* combat mode and dish out scrambled pain with Chicken Bombs. Plus: new Independent Dimension Swapping for co-op players
- New Enemies: Lethal new elite-class enemies that want to chokeslam luchadores to sleep
- Support for multiple save slots
- Dual currency system that supports permanent item unlocks
- Track your progress through the world on the Wii U GamePad's onscreen map
