

NBW:I Don't Care:Find It For Me

You've been using the Put command a bit. If you install the Drag Manager (or System 7.5) you could put files by dragging them from the Finder to the listing window. The Drag Manager is available from <ftp.support.apple.com>.

Note: You must have System 7.1 Pro or System 7.1 and Finder 7.1.3 or later to be able to use the version of Drag Manager on Apple's FTP site.
