"SECRET" Alert
for WordPerfect® 3.0a for Macintosh®
VERSION 1.0.2
— 6 AUGUST 1994 —

This document is not classified. The alert is merely a demonstration of this macro.

What It Does

The OnOpenDocument macro embedded within this document creates an alert at the time the document is opened indicating that it is classified SECRET. You will have seen this alert on opening this document.

How to Install

To use this macro, use the WordPerfect® Librarian, available from "Preferences" under the Edit menu, to copy the OnOpenDocument macro from the accompanying SECRET Library file into the document for which you want the "SECRET" alert to appear.

The wording of this alert is based on Standard Form 704, Secret cover sheet.

Version History

Version 1.0.2 hides the document text while the alert is displayed.

Notes

This macro was written free of charge for the US Army Reserve. It may be freely distributed, provided this documentation accompanies it. Send comments to wtlefercus@aol.com.
