

...THE ONLINE MAGAZINE FOR MACINTOSH GRAPHICS ENTHUSIASTS....

Issue #03

June 1995

Welcome to MacArt Magazine!

I hope you like this month's format! I decided to change after getting so many readers' suggestions to use a stand-alone format. I hope you like the new format. It makes MAM more like a magazine, and easier to read. I thank all the readers for making this possible, especially to DoctorW, my internet distributor. Also, thanks to MartonC for helping me out with DocMaker.

Another change is that I have recently purchased Photoshop 3.0 and Fractal Design Painter 3.0, and I am very excited about both of them. I hope to feature lots of tips for these two new graphics programs in issues to come.

Enjoy this month's issue,

ndy Szybalski, Editor
