

•Registration

The Griffin Testing System is released as shareware, a system which allows you to try the software BEFORE you pay for it. You may try out GTS for thirty days. If, after that time, you decide not to register you must delete all copies of the software in your possession or pass them on to someone else.

Registering GTS shows your support for my work and encourages me to continue to improve GTS and create new GTS tests. In addition, registered users are entitled to free upgrades and support. To find the most current version of GTS, as well as other GTS related goodies, visit the GTS web site at <<http://www.dreamscape.com/griffin>>.

Please see the order form for payment information.

Licensing fees for the GTS Multiple Choice software are as follows:

Single Machine License (\$20.00): This license allows you to use the software on a single computer within a single classroom.

Classroom License (\$35.00): This license allows you to use the software on up to 4 computers located within a single classroom.

Lab License (\$120.00): This license allows you to use the software on up to 20 computers located within a single classroom or computer lab.

Site License (\$500.00): This license allows use of the software on up to 100 computers within a single building.

Other licenses are also available, please contact me at the address below to work out a license that meets your specific needs.

Registered users may upgrade to a higher license by paying the difference between their current license and the desired license.
