How
- Navigating the AEOM hierarchy
   Use the + sign control to go up/down/left/right in the hierarchy

   double click a submodel to display it (go down hierarchy)

   command + left   brings you to the first of a kind
   command + right brings you to the last of a kind
   command + up   brings you to the top level

   option   + left   brings you 10 to the left
   option   + right brings you 10 to the right

- Update the current object data?
   hit the 'a' key ... the circle on the right.

- Cancel an update?
   hit command + .

- Did I develop O Boy?
   With some crankin tools
     - Metrowerks Codewarrior
     - BBEdit
     - The Jasik Debugger
     - Resorcerer
     - AEGizmos
     - QC
