Select Statistics under the Time menu, or click on the Statistics button in the Tool Bar to bring up this window.

s you click on the various options, the average hourly rate is calculated and displayed by the methods described below.

Total charge and total elapsed time
Total charge is divided by the total elapsed time.

Total charge and budgeted time
Total charge is divided by the budgeted time.

Budgeted charge and total elapsed time
Budgeted charge is divided by the total elapsed time.

This amount of information displayed here will increase in future versions of TimeTracker.
