

# scape Velocity Ship Stats

Compiled by Daniel Glick (DanSkiMan@aol.com)

This application contains all of the stats for the ships in Ambrosia's Escape Velocity including all ships that are not purchasable from planets. This guide is for reference purposes so you can compare ships and decide which ones you want (or just to look at for fun). Ships are arranged in order of cost except for the Rebel, Confederate, and Alien ships, which are seperated from the others. Ship names are the full long names. Names in parentheses are the normal, shortened names.

Enjoy!
